Respondent further stipulates the Board Technical Advisor provided a report that in summary identified the following violations of the Standards of Practice for Land Surveying in the state of Alabama:

(1) Did not use the proper certification according to Rule No. 1.03 (1.) Although the surveyor did not use the certification as outlined in Rule No. 1.03 (1.), he performed an ALTA/ACSM Land Title Survey, so he used the certification that is required from them. (2) The legal descriptions for parcels B, C, and D, use north, south, east, and west and his plat does not show these directions. The map shows bearings and distances. Parcel B, starts and the Northeast corner of Section 21, then runs West 528 feet, (this is not shown on the plat). (3) The plat does not show the difference between the measured and deed bearings and distances. Rule No. 1.03 (4), (8b.), (9c.) (4) The surveyor does not show on his plat that he set monuments at the Southeast and Southwest corners of Partial B and C, as noted in Rule No. 1.03 (15), (16).”
