The Board was briefed on the amount of surety bond that is obtained through the Department of Finance, Division of Risk Management.

Due to the non-availability of the board's legal counsel on the April 9th, the Board jumped to new business to discuss an enforcement question.

NEW BUSINESS

The Board was briefed that the office had received a complaint about an Alabama licensed professional engineer providing a false and misleading report in another jurisdiction without being licensed in that jurisdiction. The question being raised was whether Alabama should investigate the complaint or should the jurisdiction where the occurrence occurred initially investigate the matter. It was the consensus of the Board to proceed with the investigation.

The meeting adjourned at 5:20 P.M.
The meeting reconvened at 8:00 A.M. on April 9th with all board members present.

EXECUTIVE DIRECTOR'S REPORT

The Executive Director provided an office update. Hiring efforts have begun to hire a second special investigator. The redesign of the web site is almost complete. The office is looking at ways to reach out to the public and our licensees. Various pamphlets will be developed and new media tools for vendor space will be purchased.

Different options for converting to biennial renewals were discussed. It was determined that the conversion to biennial renewals should be done as soon as feasible. The guidelines for biennial licensure would be to renew odd number licenses on odd number years and even licenses on even numbered years, 30 hours of continuing education would be required with a maximum carryover of 15 hours, new licensees would not be issued any hours of continuing education, interns will not be required to renew, and there would not be a "retired" status for renewal. It was also agreed that the

certificates of authorization should also go to biennial renewals. The executive director was instructed to determine what of these conversions could be done without a law change and to determine the financial impact of these conversions.

The Board reviewed the proposed changes to the Administrative Code and instructed the executive director to begin the advertisement of those changes.

Due to the length of discussion on the Administrative Code proposed changes, it was decided to postpone the discussion on proposed Law Changes. A subcommittee composed of Mr. Barter, Mr. Foust, and Mr. Christy was tasked to develop a draft Law Revision to be discussed at the next board meeting.

UNFINISHED BUSINESS AND CORRESPONDENCE

The \$250 reinstatement fee is assessed to individual PEs, PLSs and companies failing to renew their individual license prior to December 31, 2013 for licensees and January 31, 2014 for companies. The individuals and holders of Certificates of Authorization who were requesting a waiver of the reinstatement fee were discussed.
