Action items from previous meetings were reviewed.

To enable an open dialogue with the public present at the meeting the agenda item under the Chair's Report was taken out of order.

**CHAIR'S REPORT**

The proposed changes to the Administrative Code were reviewed by the Board. The Board office did not receive a request for a public hearing so the discussion of the proposed changes was handled as a point of business during the regularly scheduled meeting. Written comments on the proposed changes

were received by ASPLS and ACEC. It was suggested that the Society of Black Engineers the Society of Women Engineers and the Hispanic Engineering Society be considered for possible membership on the nominating committee at a future date if they so choose to become involved in the nomination process. The Board discussed and heard comments from the public present the arguments for and against the suggested changes to the proposed rules that had been submitted by ASPLS. Comments included that if the Board agreed to the changes proposed by ASPLS that it would mean the Board had become involved in the board member nomination process. It was also noted that if the Board agreed to the changes that since they were significant changes to what had been advertised that it would be necessary to readvertise the proposed rule. ASPLS presented their position that the Board had been involved in the original memorandum of agreement and that this was only making the old memorandum of agreement binding on all societies not just ASCE and ASPE.

10-196. IT WAS MOVED by Mr. Arkle and seconded by Mr. Ulrich not to accept ASPLS recommended changes. Motion Carried 5-1-1 with Mr. Arnold voting against the motion and Dr. Turner abstaining.

The Board considered the changes that had been submitted from ACEC. It was determined that there was not a conflict in the proposed language in the language referring to the open meetings act. The Board concluded that it did not want to put any additional length of time that a nonparticipating society might be held out since it might be hard to get them back to being active if they were not participatory for that length of time. It was agreed that there had to be some type of language about the selection of a meeting chair in the event that all societies had brought forth nominees.

10-197. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner that the Board adopts the proposed new Rule 330-X-1.13 as amended. MOTION CARRIED 6-1 with Mr. Arnold voting in the negative.

In closing the Board Chair tasked the Executive Director to call for a meeting of the nominating committee working group to discuss the issues that had been identified regarding the nominating process and to highly encourage the societies to come to a resolution of the issues.

## **OPEN FORUM**

ASPLS representatives asked if they could make a few comments at this time since they were not going to be in attendance for the entire meeting. The ASPLS representatives asked the Board to provide a recap on Board discussions that involved surveying issues that to them so that the issues could be included in their society newsletter. The Board felt that this was another avenue to communicate with licensed surveyors.

The Board returned to the normal agenda.

Action items from previous meetings were reviewed.

## **LAW ENFORCEMENT – Mr. W. Gerald Wilbanks, Advisor**

The Board reviewed the status of the files pending with the Board, the Investigator, and/or the Investigative Committee. The Board reviewed the list of those completed cases that are being monitored. The Board was briefed on the 2010 statistics.

**ENGINEERING** – Mr. William C. Ulrich, Jr., Advisor

The Board reviewed a request from Mr. Andreas Buitrago who was requesting an opinion if a MS in Environmental Engineering from the University of Arkansas is acceptable for licensing as a professional engineer. Dr. Turner briefed that the ABET criteria for accrediting MS degrees ensures that the BS progression requirements have been met. It was the Board's opinion that an applicant who holds a non-engineering BS degree plus a MS ABET accredited degree should be considered as being equivalent to an ABET graduate and thus require 48 months of acceptable engineering experience.

The Board approved the results of the April 2010 FE and PE examinations. It was also noted the number of no shows for the exams. It was suggested that a letter be sent to the engineering deans identifying the board's concerns about the number of no shows for first time takers since the board subsidizes a portion of the cost of the fundamentals exams for first time takers.

10-215. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner to accept NCEES' recommended cutoff score and that the results of the Fundamentals of Engineering examination given April 17, 2010 be accepted, and further that the ABET graduates who have had transcripts furnished direct to the Board Office be approved for Engineer Intern certification and included in the minutes on **Attachment #2**. MOTION CARRIED UNANIMOUSLY.

10-216. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner to accept NCEES' recommended cutoff score and that the results of the PE examination given April 16, 2010 be accepted and further that the list of those issued licensure as a result of passing this examination be included in the minutes on **Attachment #1**. MOTION CARRIED UNANIMOUSLY.

### **EXECUTIVE DIRECTOR'S REPORT**

The Board elected officers for the 2010-2011 board year.

10-217. IT WAS MOVED by Mr. Arkle and seconded by Mr. Santora that Mr. Arnold be elected as Chair, Mr. Ulrich be elected as Vice-Chair, and Mr. Wilbanks be elected as Secretary of the Board for the 2010-2011 year. MOTION CARRIED UNANIMOUSLY.

The Board reviewed the motions that will be presented at the upcoming NCEES Annual Meeting.

The Board recapped the events that had taken place during the Legislative Sunset Hearing. It was noted that the Board needed to maintain a dialogue with Senator Figures and Representative Mitchell to enlist their aid in getting the word out to the minorities to encourage licensure.

The meeting adjourned at 5:30 P.M. The meeting reconvened at 8:00 A.M., Thursday, July 16, 2010 at the Board office with all board members present.

### **CORRESPONDENCE**

The Board reviewed a request from Mr. Curtis Piece who was requesting reinstatement of his revoked professional land surveyor's license. Mr. Piece had provided proof of completing an ethics course taught at New Mexico State University.

10-218. IT WAS MOVED by Dr. Turner and seconded by Mr. Wilbanks to approve the reinstatement of Mr. Curtis Pierce's Professional Land Surveyor License Number 16175. MOTION CARRIED 6-0 with Mr. Arkle recused.

The Board reviewed a request from Mr. William Dawson who was requesting an opinion if it was a violation of the Code of Ethics to discuss pricing after the presenting of their qualifications. The Board reiterated that the first priority in any type of selection process was to be qualification based selection. Rates and man-days should only be discussed after the qualification discussion. The sequence of events should be qualification discussion, best selected, negotiation of price. If this process is used

then there should not be an undercutting of price. This sequence does not preclude a general discussion on overhead costs, etc during the qualification discussion but at no time should there be a final cost discussed prior to the selection. It was noted that qualification based selection process can be confusing to those not familiar with it and it was suggested that the Board look at the development of a position statement that would give further guidance to licensee.

The Board reviewed a request from Mr. Ron Adams who was requesting a clarification if a city could require a utility company to submit plans signed and sealed by a licensed professional engineer that involved access to the city's right-of-ways. It was the Board's opinion that all individuals must meet the locale's governing authority's requirements including the signing and sealing of the engineering documents.

The Board reviewed correspondence received from the Louisiana Professional Engineering and Surveying Board who had identified concerns regarding the recent Deepwater Horizon accident and subsequent oil spill. Since the incidents have an effect on multiple states the Louisiana Board wanted to look at cross states issues and to coordinate the various states' efforts. The Board identified that they were also concerned about the issues involved including the possible engineering being done in Alabama regarding the clean-up efforts. The Board agreed that they would meet with the Louisiana Board at the upcoming NCEES Annual meeting to discuss the issues.

The Board reviewed various newsletters that required no response. It was noted that the NCEES Engineering Award information should be forwarded to the engineering deans.
