

**MINUTES OF FOURTH MEETING
2018-2019 BOARD OF LICENSURE
FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS
Montgomery, Alabama
May 6-8, 2019**

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. Its charter is to protect the public by helping to safeguard life, health, and property, and to promote the public welfare by providing for the licensing and regulation of persons in the practices of engineering and land surveying. This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through swift and effective discipline for those individuals or entities who violate the applicable laws or rules.

Board meeting notices are posted on the Open Meetings area of the website of the Secretary of State, and the Board's website under Dates and Deadlines.

The Board determined to have staff be mindful of these type issues when providing presentations to various organizations.

LEGISLATIVE - Mr. Randall D. Whorton, Advisor

The Board reviewed the bills that had been filed in the House and Senate. It also discussed a bill that would require professional service providers that provide services to State Agencies to have tracking software on their computers.

The Board briefly discussed the upcoming visit of NCEES Leadership (Southern Zone VP Chris Knotts) and any issues that it wished to discuss with him at its July 16, 2019 meeting.

CORRESPONDENCE

The Board reviewed a request from Mr. Ronald P. Mosley that he be granted the right to use the title "Professional Engineer, Retired."

19-083. IT WAS MOVED by Mr. Barter and seconded by Ms. Adams-Morales that the Board grant approval for Ronald P. Mosley to use the title "Professional Engineer, Retired". MOTION CARRIED 6-0.

The Board reviewed correspondence received from Mr. Harun Perez in which he asked: if a professional engineer could review all project documents (request for bid package, meeting notes, e-mail correspondence, client comments on drawings/calculations, etc) that have been developed during the life of the project; and stamp the drawings and calculations?

The Board determined to notify Mr. Perez by letter that it felt the Code of Alabama and the Administrative Code of the Board were clear on this matter.

The Board reviewed correspondence received from Ms. Lisa Armfield, in which she asked: Is a firm that provides a Process Hazard Analysis (PHA) on existing Process Safety Management (PSM) covered chemical processes, and on new capital project chemical processes, required to employ an Alabama licensed professional engineer and hold a certificate of authorization?

The Board determined to notify Ms. Armfield by letter that based on the facts that she presented, the services would be within the definition of the practice of engineering identified in the Code of Alabama Section 34-11-1(13)(b) and a licensed professional engineer would be required. A firm that offers these services would also require licensure.

NEW BUSINESS

The Board reviewed correspondence submitted by Mr. W. Kirkland Mattei for Young Engineers Ltd., that requested the Board allow the organization's name to contain the word "Engineers" without having to meet the certificate of authorization requirements. The Board determined the word "Engineers" in the firm name did not tend to convey that the organization was offering engineering services and further determined the organization would be allowed to operate in Alabama as Young Engineers Ltd.

19-084. IT WAS MOVED by Mr. Whorton and seconded by Ms. Hyde that the Board allow the firm Young Engineers Ltd., to operate in the State of Alabama without having to meet the certificate of authorization requirements. MOTION CARRIED 6-0.

The Board reviewed correspondence submitted by Ms. Wanda Perriens on behalf of Maryland University College requesting the Board review course materials to determine if the course would meet the requirements for licensure as a professional engineer in the State of Alabama.

After review of the materials the Board determined to advise Ms. Perriens that the course does not meet the requirements for licensure as a professional engineer in the State of Alabama.

The Board discussed the fees required by NCEES for its exams and determined that it will make a motion at the appropriate NCEES meeting regarding the reduction of exam fees.

The Board determined to take up no additional business, that it would re-convene at 8:00 AM on Tuesday May 8, 2019, and recessed at 3:50 PM for the day.
