

**MINUTES OF FIRST MEETING
2019-2020 BOARD OF LICENSURE
FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS
Montgomery, Alabama
November 6, 2019**

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. Its charter is to protect the public by helping to safeguard life, health, and property, and to promote the public welfare by providing for the licensing and regulation of persons in the practices of engineering and land surveying. This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through swift and effective discipline for those individuals or entities who violate the applicable laws or rules.

Board meeting notices are posted on the Open Meetings area of the website of the Secretary of State, and the Board's website under Dates and Deadlines.

The Board determined to draft a letter to the Governor that stated it generally supported the removal of the utility exemption; but recognized that it would require a law change and the cooperation of the Public Service Commission.

The Board discussed Action Item 2018-01 regarding remote supervision, and Action Item 2019-01 related to drafting a letter to be sent to County GIS Offices. It was determined that the working group would meet to discuss the remote supervision issue, and that Mr. Breighner and Mr. Johnson would provide edits for the draft letter in Action Item 2019-01.
