

**MINUTES OF FIRST MEETING
2017-2018 BOARD OF LICENSURE
FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS
Montgomery, Alabama
October 6, 2017**

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. Its charter is to protect the public by helping to safeguard life, health, and property, and to promote the public welfare by providing for the licensing and regulation of persons in the practices of engineering and land surveying. This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through swift and effective discipline for those individuals or entities who violate the applicable laws or rules.

Board meeting notices are posted on the Open Meetings area of the website of the Secretary of State, and the Board's website under Dates and Deadlines.

The Board reviewed possible meeting dates for FY2017-2018, and determined the following dates should be posted on the Secretary of State’s Open Meetings website: January 30th, March 27th, May 22nd, July 31st, September 18th and November 14th.

The Board was informed that no public comments were received regarding the proposed new language to be placed in its Administrative Code that would award new licensees 30 professional development hours (PDH) to be used for their first license renewal.

18-018. IT WAS MOVED by Mr. Barter and seconded by Mr. Grace that a proposed rule change be adopted and the adoption documentation be submitted to the Legislative Reference Service (LRS) for review. MOTION CARRIED 5-0.

The Board reviewed the term periods of its members and elected officers for the 2017-2018 fiscal year.

18-019. IT WAS MOVED by Mr. Christy and seconded by Mr. Johnson that Ms. Hyde be elected to serve as Chair, Mr. Johnson be elected to serve as Vice Chair, and Mr. Whorton be elected to serve as Secretary. MOTION CARRIED 5-0.

Mr. Johnson, the new Vice Chair, assumed the duties of the Chair after the vote.

CORRESPONDENCE

At its July 18, 2017 meeting the Board voted to submit a request to the Legislative Reference Service (LRS) requesting an opinion as to if Act # 2017-384 is sufficient to afford the Board immunity from anti-trust claims. The Board discussed a letter received from Senator Clyde Chambliss in which he asked the Board not to move forward with the LRS rule request until he had time to meet with all parties and reach an agreeable solution. The Board agreed to the request of Senator Chambliss.

The Board reviewed a request from the American Council of Engineering Companies of Alabama (ACEC) which asked the Board to withdraw its vote to submit a request to the Legislative Reference

Service to review the Qualification Based Selection (QBS) rule currently in its Administrative Code. The Board determined that it would postpone any action until Senator Chambliss was able to meet with all parties.

Ms. Renee Casillas, the Executive Director of ACEC, briefly discussed the organization's position on certain items (public members, etc.) in the Board's proposed law change to be submitted in the 2018 legislative session.

The Board discussed a letter from Mr. Michael Henry in reference to the preparation and certification of SPCC Plans by persons other than professional engineers. After its discussion, the Board determined it would inform Mr. Henry that smaller tanks and facilities may not require the involvement of a professional engineer, while more complex larger tanks and facilities would require the services of a professional engineer. Due to the many variables associated with SPCC plans each tank or facility must be evaluated on a case by case basis and if questions arise, a professional engineer should be consulted.

The Board discussed a request submitted by Mr. Sam Wainwright, Professional Engineer and Professional Land Surveyor that it consider exempting licensees over the age of 60 from the professional development hours (PDH) requirement. The Board determined it would inform Mr. Wainwright that it would not create this PDH exemption.

Board Member Randall Whorton had submitted documents relating to Board Composition for the Board to discuss, and since he was not able to attend the meeting the discussion on those items was postponed to the November 14, 2017 meeting.

Mr. Dan Denton, Chapter Relations Manager for RETA (Refrigerating Engineers and Technicians Association) submitted a letter to the Board requesting that the association be permitted to retain the term "Engineers" in its name. After discussion, the Board determined that the name of the Association did not tend to convey the impression that the Association was offering engineering services and therefore the Association could retain the term "Engineers" in its name.

Mr. David Fannon submitted a request that the Board consider placing an article in its newsletter that indicates his previous guilty finding by the Board was overturned by a circuit court.

18-020. IT WAS MOVED by Mr. Barter that an article be placed in the Board's Newsletter regarding Mr. Fannon's request. The motion failed due to the lack of a second.

The Board reviewed a request from NCEES to update its Members, Staff and Emeritus Members. After review and discussion, the Board determined it would not submit the names of former Board Members to NCEES as Emeritus Board Members if they no longer held an active license or resided in the State of Alabama.

The Board reviewed a request from the State of Alabama Engineering Hall of Fame that asked the Board to provide a donation to the organization. The Board directed that a letter be sent to the organization advising it that the Board did not by law have the authority to give donations.

The Board reviewed a request from the Alabama Onsite Wastewater Board that informed the Board that the Professional Engineer serving in the position that required the Board to submit names to the Speaker of the House of Representatives for his consideration had resigned. The Board directed staff to send an email to all licensed professional engineers residing in the State of Alabama requesting interested

individuals who have experience and an understanding of the design and construction of onsite wastewater systems, to submit resumes to the Board prior to November 1, 2017.

The Board received as request from Alabama Council of Engineering Companies (ACEC) that it send a representative to their meetings. The Board directed that Public Information Specialist Griffin Pritchard attend those meetings.
