**APPLICATIONS – Mr. Preston L. Jackson, Advisor**

Mr. McCabe presented background on his pending comity professional engineering application. Mr. McCabe outlined the procedures that were used when he was initially licensed in New York and what other examinations he may have taken when becoming licensed in other jurisdictions.

09-086. IT WAS MOVED by Mr. Reisz and seconded by Mr. Ulrich that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for the purpose of discussing pending applications. Mistrs Arkle, Arnold, Jackson, Reisz, and Mr. Ulrich voted in favor of the motion.

Chair Arkle announced the Board would reconvene into open session at approximately 3:30 P.M. The meeting was closed to the public. The Executive Session was concluded and the Board reconvened in Open Session at 4:00 P.M.

Applications of those applying for Professional Engineer licensure by comity, as provided by Section 34-11-4(1)(b) of the Licensure Law, were considered.

Applications of those applying for Professional Engineer licensure by examination, as provided by Section 34-11-4(1)a. and b. of the Licensure Law having previously passed the FE Examination in Alabama or in another jurisdiction, were considered.

- 09-093. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich that the Board denies for examination those applicants listed as denied on **Attachment #3**. MOTION CARRIED UNANIMOUSLY.

The Board reviewed request for board evaluation of transcripts from applicants who wished to be considered for licensure on the basis of obtaining a related science degree or a foreign degree. The Board discussed what should be considered a related science degree. It was pointed out that the Administrative Code defines a related science degree as it applies to an engineering application as a physics, mathematics, or other program which the Board may determine is related to engineering from a school or college which has been accredited by a regionally accredited commission. Mr. Gary Johnson's Bachelor of Science Degree in Criminal Justice was determined not to meet the related science criteria. Mr. Prakash Luetel's transcript evaluation of his foreign degree identified that he was 9 hours short of mathematics and basic sciences.

- 09-094. IT WAS MOVED by Mr. Jackson and seconded by Mr. Ulrich that Mr. Gary Johnson's application be denied for the Fundamentals of Engineering examination since he does not meet the criteria to be accepted as a related science graduate. MOTION CARRIED UNANIMOUSLY.

- 09-095. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Jackson that Mr. Prakash Luetel be deferred for the Fundamentals of Engineering examination since he is short 9 semester hours of mathematics and basic sciences. MOTION CARRIED UNANIMOUSLY.

MOTION CARRIED UNANIMOUSLY.

MOTION CARRIED UNANIMOUSLY.

## NEW BUSINESS

The Board went into closed session to review the case file for a hearing regarding Case 07-39-B that had been presented to Administrative Law Judge Tori L. Adams on November 14, 2008. The Board reviewed the recommendations of Judge Adams. Mr. Arkle and Mr. Arnold identified that they would be recused from discussions regarding the case since they both were familiar with the respondent.

<sup>99</sup>  
~~09-098~~. IT WAS MOVED by Mr. Jackson and seconded by Mr. Ulrich that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for the purpose of deliberating on Case 07-39-B. The Board accepted the Administrative Law Judge's recommendations with modifications. Mr. Vincent D. Lucido, PE #13918, will be required to pay a \$3,200 fine, he will pay the Board the costs of the investigation, and he is publically reprimanded for engaging in misconduct that discredited the profession of engineering, and that this matter will be a matter of public record.

#### **FINANCE/PERSONNEL – Mr. Al I. Reisz, Mr. Don T. Arkle, Advisors**

The reports on the receipts as well as expenditures were reviewed.

The Board was updated on the efforts to hire an Administrative Law Judge. It was noted that the annual agreement with the Office of the Attorney General identified the same amount for reimbursement for legal services even though the Attorney General's office would no longer be providing administrative law judge services.

09-131. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich to authorize the Executive Director to negotiate with the Attorney General's office for a reduced rate initially offering \$8,000.

The Board discussed the issues involved with changing the eligibility and determined that while they supported the goal of the students being better prepared to sit for the FE examination, that they will not change the current language.

#### **CHAIR'S REPORT**

Due to the 2007-2008 Annual Report not being available the Board carried over approval of the report to the April 2009 Board meeting.

## **EXECUTIVE DIRECTOR'S REPORT**

The Board was briefed on the possible agenda items for the NCEES Southern Zone Meeting. Mr. Jackson identified that he had been asked to serve on the Awards Committee.

The Executive Director briefed the board on state travel requirements.

## **UNFINISHED BUSINESS**

Mr. Reisz updated the Board on the efforts to develop a joint letter with the State Fire Marshal in regards to the designing of fire protection sprinkler systems. The Board approved the revised transmittal letter and directed that the letter be sent to the Fire Marshal for his concurrence.

09-133. IT WAS MOVED by Mr. Jackson and seconded by Mr. Ulrich to approve the revised fire protection sprinkler systems letter. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Mr. Al Cabaniss who requested the Board's opinion if he could seal multiple disciplines and whether the project required the services of an architect or if it could be considered incidental architecture. It was the Board's opinion that the Code of Ethics identifies that licensees are to perform their services in only those areas in which they are competent. Having no knowledge that Mr. Cabaniss is not competent and that it was the Board's opinion that he was a competent engineer when they approved him for licensure that there is no evidence to say that he is not competent. The Board further agreed that Mr. Cabaniss would have to seek an opinion from the Board of Registration for Architects to determine their opinion on the architectural question.

The Board reviewed various newsletters that required no response.

09-159. IT WAS MOVED by Mr. Jackson and seconded by Mr. Ulrich that probable cause exists regarding an allegation that Mr. Kenneth E. Holt, Professional Land Surveyor #24969, had provided surveying services in regards to an onsite sewage disposal system that contained errors and omissions. It was further determined that Mr. Holt did not provide the services in a timely manner and failed to cooperate with the Board during the investigation. The approved terms of the consent order are that this matter will be a matter of public record, Mr. Holt will pay a \$3,000 fine to the Board, and he will serve one year probation. The Board accepted the consent order and issued the final order. MOTION CARRIED 4-0 with Mr. Arnold recused. (Case 08-39-B)

The approved terms of the consent order are that this matter will be a matter of public record, the firm will pay a \$1,000 civil penalty to the State of Alabama General Fund, they will pay \$323.00 to the Board for the expenses incurred during the investigation; and the firm shall cease and desist offering to practice or practicing engineering services in Alabama until the firm employs a licensed Alabama professional engineer and the firm obtains a certificate of authorization. The Board reviewed enforcement action taken against Alabama licensees by other licensing jurisdictions.

09-161. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich that a letter should be sent the licensees involved in the cases reviewed notifying them that the enforcement actions taken by the other jurisdictions would be made a part of their Alabama license files. MOTION CARRIED UNANIMOUSLY.

The Board discussed the number of pending cases that required extensive work by technical advisors. It was decided to use various methods to increase the number of volunteer technical advisors. The need for technical advisors will be included in the Board's newsletter. The various societies will be asked to include an article on the need for technical advisors in their newsletters. There was also discussion about the possibility of offering continuing education credit for the advisors.

09-162. IT WAS MOVED by Mr. Arnold to advertise the need for technical advisors, to change the Administrative Code to allow continuing education credit for advisor work and to further authorize the Executive Director to pay a firm/advisor when needed to handle time sensitive issues. MOTION DIED for lack of a second.

The advantages and disadvantages of using paid technical advisors were discussed. It was determined that the Board's preference was to exhaust the list of volunteers prior to employing advisors.

The Board recessed at 5:15 P.M. to reconvene at 8:00 A.M.  
The Board reconvened at 8:00 A.M. on Friday, May 1, 2009.

09-163. IT WAS MOVED by Mr. Arnold and seconded by Mr. Jackson that the Board ratify the approval of Engineering Certificates of Authorization CA-3706-E through CA-3755-E issued since the March 5, 2009 Board Meeting and Land Surveying Certificates of Authorization CA-880-LS through CA-889-LS issued since the March 5, 2009 Board Meeting and further that the list of those issued be included in the minutes on **Attachment #4**. **LEGISLATIVE – Mr. Preston L. Jackson, Advisory**

The Board was briefed on the pending legislation being monitored by the board staff. Efforts will continue to seek passage of the bill changing the Board's licensure law.

**CONTINUING PROFESSIONAL COMPETENCY – Mr. Al I. Reisz, Advisor**

The results of the audit for the 2009 renewal cycle were briefed. Second notices have been sent to those who have not responded to the first notification letter.

The Board reviewed the requests from licensees who were asking if certain types of courses would be acceptable for continuing education credit. It was the Board's opinion that credit can not be given for the passing of licensure or accreditation examinations. Credit can be given for a formal review course which may lead to the passing of an accreditation exam.

**FINANCE/PERSONNEL – Mr. Al I. Reisz, Mr. Don T. Arkle, Advisors**

The reports on the receipts as well as expenditures were reviewed.

**ENGINEERING EDUCATION & EXAMINATIONS – Mr. William C. Ulrich, Jr., Advisor**

The Board reviewed the recently published NCEES Engineering Education Task Force Analysis Report. The task force was charged with the analysis of the impacts of the master's or equivalent requirement for engineering licensure. It was pointed out that the report identified it had not completed the analysis of alternative solutions. The Board is also concerned that the task force still has not addressed the body of knowledge content that should be required for the engineering degrees. Mr. Arkle volunteered to develop a position statement that identified Alabama's concerns. The statement would address the decreasing requirements by ABET and that the goal should be to make the BS programs sufficient for licensure.

The changes to the NCEES Structural Principles and Practice Examination effective with the April 2011 administration were discussed. An 8-hour structural option will no longer be available. Structural applicants will have to take a 16-hour examination which will be offered in two sessions, one 8-hour session on Friday and one 8-hour session on Saturday. The cost of the exam will exceed the maximum limit the Board is authorized by law to charge for the examination. The staff was tasked to look at possible changes to the Law and Administrative Code that will enable the applicants to take the 16-hour examination. The staff will also include an article in the next newsletter alerting the structural licensees that the current Structural II examination will only be available through October 2010.

## **CHAIR'S REPORT**

The Board reviewed and approved the 2007-2008 Annual Report.

09-167. IT WAS MOVED by Mr. Jackson and seconded by Mr. Reisz that the 2007-2008 Annual Report and Financial Statement be accepted for submittal to Governor Bob Riley. MOTION CARRIED UNANIMOUSLY.

## **EXECUTIVE DIRECTOR'S REPORT**

Travel to the NCEES Annual Meeting was approved.

09-168. MOTION CARRIED UNANIMOUSLY.

Travel to the CLEAR Annual Conference was approved.

90-169. IT WAS MOVED by Mr. Jackson and seconded by Mr. Reisz that the board members, executive director, assistant executive director, and board attorney be approved to attend the 2009 CLEAR Annual Conference including the executive leadership program and board member training in Denver, Colorado and that the investigator be approved to attend the NCIT Specialized Program. MOTION CARRIED UNANIMOUSLY.

Travel to the IEEE Conference was approved.

09-170. IT WAS MOVED by Mr. Arnold and seconded by Mr. Reisz that Mr. Jackson be authorized to attend the 2009 IEEE Pulp and Paper Industry Conference to be held at the Ross Bridge Hotel, Birmingham, Alabama on June 21-26, 2009. MOTION CARRIED UNANIMOUSLY.

Proposed changes to the Administrative Code were reviewed. Since there were no changes that were time sensitive and it was identified that other areas of the Administrative Code also needed to be reviewed, it was determined that no formal action would be taken on the proposed changes until a later board meeting.

## **CORRESPONDENCE**

The Board reviewed a request from Mr. Kundtz who was requesting the board to reconsider the denial of his request for waiver of the reinstatement fee for his lapsed individual license. It was noted that the board had made a motion at the last board meeting not to waive the reinstatement fees.

09-171. IT WAS MOVED by Mr. Arnold and seconded by Mr. Jackson to disapprove Mr. Kundtz's request for a waiver. MOTION CARRIED UNANIMOUSLY

The Board reviewed a request from Dr. Garry W. Vermaas who requested the Board's opinion if he could seal multiple disciplines. Having no knowledge that Dr. Vermaas is not competent and that it was the Board's opinion that he was a competent engineer when they approved him for licensure it was the Board's opinion that there is no evidence to say that he is not competent to seal multiple disciplines.

The Board reviewed a request from Mr. Ghulam Shahnami who requested the Board's opinion if he could seal multiple disciplines. Having no knowledge that Mr. Shahnami is not competent and that it was the Board's opinion that he was a competent engineer when they approved him for licensure it was the Board's opinion that there is no evidence to say that he is not competent to seal multiple disciplines.

The Board reviewed a request from Mr. David Owens who was asking if the scenario he described would require the individual providing the engineering services to be a licensed professional engineer. Mr. Owens was asking if an individual providing physical plant engineering for their own employer's facilities needed to be a licensed professional engineer.

09-172. IT WAS MOVED by Mr. Reisz and seconded by Mr. Jackson that based on the definition of the practice of engineering contained in Section 34-11-1(7) the scenario described by Mr. Owens would require the services of a licensed professional engineer. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Mr. Nicholas Crane who was asking for the exam fee he paid for the April Fundamentals of Engineering Examination be rolled to the October exam date. Mr. Crane had not completed the registration process with the exam administrators and thus was not allowed to sit for the April exam.

09-173. IT WAS MOVED by Mr. Jackson and seconded by Mr. Arnold to disapprove Mr. Crane's request for a roll-over of the FE exam fee to the October 2009 examination. MOTION CARRIED UNANIMOUSLY.

The Board reviewed various newsletters that required no response.

#### **ENGINEERING EDUCATION & EXAMINATIONS – Mr. William C. Ulrich, Jr., Advisor**

The Board reviewed the recently published articles on the status of higher education in the United States. 09-223. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arnold that the scenario described by Mr. McLeod could not be viewed as supplanting. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Mr. Jeff Arrington, P.L.S., who was asking if construction staking and mapping fell under the definition of surveying and as such required the services of a licensed professional land surveyor. It was the Board's opinion that surveying was one of several professions that could possibly perform construction staking and mapping. The requirement for a licensed professional surveyor is needed for the establishing of boundaries or the setting of control points that might be used for the setting of monuments or reference points. The surveyor's involvement in mapping is dependent on the nature of the map being developed.

The Board reviewed various newsletters that required no response.

Travel to the 2010 FARB Annual Meeting was approved.

10-033. IT WAS MOVED by Mr. Arkle and seconded by Mr. Reisz to authorize all board members, the board executive director, assistant executive director, and board attorney to attend the 2010 FARB Annual Meeting to be held January 28 – February 1, 2010 in Las Vegas, NV. MOTION CARRIED UNANIMOUSLY.

## **CORRESPONDENCE**

The Board reviewed a request from John Quinnelly, Sr., owner of Ace Metal Building Inc., who was requesting the Board to remove the reference of Ace Metal Buildings in a Consent Order, agreed upon by Mr. James Parkes and the Board. It was the Board's opinion that the Consent Order reflected the facts of the case and that they did not intend to change the record.

10-038. IT WAS MOVED by Dr. Turner and seconded by Mr. Reisz to disapprove Mr. Quinnelly's request and that further the owners of the buildings and Ace Metal Building Inc. should be notified of possible design deficiencies in the buildings and to suggest that the owners get a qualified structural engineer to investigate the buildings. MOTION CARRIED UNANIMOUSLY.

The Board reviewed various newsletters that required no response. The Board noted the article on remote supervision and asked the executive director to query the other boards on how they deal with branch offices and remote supervision.

## **NEW BUSINESS**

The Board reviewed two newly received pending cases that the investigative committees have completed to accept, modify, or reject the suggested courses of action.

10-039. IT WAS MOVED by Mr. Arnold and seconded by Mr. Wilbanks that probable cause exists regarding an allegation that Mr. Ronald N. Hall, PE #13761, had placed his seal and signature to onsite sewage disposal applications prepared by a non-licensee without providing direct supervision. The approved terms of the consent order are that this matter will be a matter of public record, Mr. Hall will pay the Board a \$1,500.00 fine in monthly payments of \$250.00, and his license to practice engineering is suspended for one year with the suspension being stayed. The Board accepted the consent order and issued the final order. MOTION CARRIED 6-0 with Mr. Reisz recused. (Case 05-42-B)

10-040. IT WAS MOVED by Mr. Reisz and seconded by Dr. Turner to close Case 09-318-C with no further action. MOTION CARRIED 6-0 with Mr. Ulrich recused.

The Board reviewed a request from Mr. Jan Jubon who was requesting that his professional engineer's license be deactivated without it being placed in lapsed status. It was noted that the Licensure Law and Administrative Code do not have any provision for deactivation of a license. Mr. Jubon will be notified of the Board's decision and what renewal options are available to him.

10-041. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arkle to disapprove Mr. Jubon's request. MOTION CARRIED UNANIMOUSLY.

The Board was briefed on problems that have been identified with the licensure database system and the on-line renewal system. It has been discovered that the reporting of carryover hours from 2009 to the 2010 renewal cycle may or may not be correct. Staff are reviewing the renewals already processed and have determined that some renewals may have been processed that do not have the required hours of continuing education.

10-042. IT WAS MOVED by Mr. Reisz and seconded by Dr. Turner that licensees who have renewed who have now been found to be deficient in professional development hours will have 180 days in which to make up the deficiency and furthermore that if the deficiencies are not corrected within the specified time the license will be changed to lapsed status. MOTION CARRIED UNANIMOUSLY.

## **UNFINISHED BUSINESS**

The Board was provided a recap on the issues involved with the proposal from ASPLS on changes to the Administrative Code in regards to the setting of monumentation for subdivisions. ASPLS has requested the Board to consider changes that would allow the delay in the actual setting of the monuments. Board members identified concerns regarding the time frame for closure (timeliness of the monumentation setting) and the identification of who is responsible for the completion. Concerns identified are not only to protect the public but also the licensees that are involved. A motion was made and then withdrawn asking ASPLS to continue researching the problem and to work with the Board to resolve the identified issues. It was the consensus of the Board that additional effort should be made in outlining how the closure should occur and whose responsibility it is to ensure that the monumentation is set. ASPLS should be thanked for the work already done and be asked to continue with their efforts.

Misters, Arkle, Reisz, Santora, Ulrich, Wilbanks, and Dr. Turner voted in favor of the motion. Mr. Arnold abstained.

The Board reviewed a petition from Mr. Daniel Compagno which asked the Board for a declaratory ruling on what constitutes direct control and supervision.
