The proposed meeting agenda was reviewed. The new agenda items were briefed.

11-047. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Arkle to adopt the revised agenda. MOTION CARRIED UNANIMOUSLY.

Minutes of the first meeting of the 2010-2011 Board held December 2-3, 2010 were received for approval.

11-048. IT WAS MOVED by Mr. Santora and seconded by Mr. Ulrich that the minutes of the first meeting of the 2010-2011 Board held on December 2-3, 2010 be approved as written. MOTION CARRIED UNANIMOUSLY.

APPLICATIONS – Mr. Phillip E. Santora, Advisor

11-049. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Foust that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for one hour for the purpose of discussing pending applications. Misterys Arkle, Arnold, Foust, Santora, Ulrich, and Wilbanks and Dr. Turner voted in favor of the motion.

Chair Arnold announced the Board would reconvene into open session at approximately 9:15 A.M. The meeting was closed to the public. The meeting was opened to the public at 9:20 A.M.

The Board deviated from the adopted agenda to take agenda items out of order that might require a lengthy discussion.

11-050. IT WAS MOVED by Dr. Turner and seconded by Mr. Santora to deviate from the board agenda. MOTION CARRIED UNANIMOUSLY.

EXECUTIVE DIRECTOR'S REPORT

The Board approved travel to the 2011 Interim NCEES Southern Zone Meeting

11-051. IT WAS MOVED by Mr. Arkle and seconded by Mr. Ulrich that all Board Members, Executive Director, Assistant Executive Director, and Board Attorney, be appointed as delegates to the Annual NCEES Southern Zone Interim Meeting to be held in Austin, TX on April 28-30, 2011; and further that Mr. Arnold be designated as the funded delegate. MOTION CARRIED UNANIMOUSLY.

The Executive Director briefed the Board on recent changes to the Alabama Ethics Laws.

The emergence of software engineering as an engineering discipline was discussed. The board staff was seeking guidance as to a scope of practice on what was determined to be software engineering. It was identified that the staff was working with the Texas Board of Professional Engineers to see if a scope of practice had already been developed since the Texas Board was taking the lead on the development of the software engineering PE exam. It was also suggested to contact IEEE since they were assisting in the development of the exam. The Board also determined that the use of the title "Applications Engineer" fell within the title protections and as such an individual using that title would have to be a licensed PE.

The Board was briefed on the outcome of the latest meeting of the nominating committee working group. The group had requested the Board to consider changes to the Administrative Code that would specify the composition of the Board. It was determined that what was being requested could not be done since the Licensure Law did not give that authority to the Board. It was noted that Administrative Rules could not create new law.

11-052. IT WAS MOVED by Mr. Ulrich and seconded by Dr. Turner to thank the nominating committee group for their efforts and improved dialogue but that the changes to the Administrative Code proposed by the nominating committee working group will not be considered since the Board does not have the power to create new law via the adoption of administrative rules. MOTION CARRIED UNANIMOUSLY.

APPLICATIONS – Mr. Phillip E. Santora, Advisor

11-053. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for one hour for the purpose of discussing pending applications. Misterns Arkle, Arnold, Foust, Santora, Ulrich, and Wilbanks and Dr. Turner voted in favor of the motion.

Chair Arnold announced the Board would reconvene into open session at approximately 11:30 A.M. The meeting was closed to the public. The meeting was opened to the public at 11:25 A.M.

NEW BUSINESS

The Board reviewed requests from individuals who were requesting a waiver of the reinstatement fee for their late individual renewals. The Board noted that sufficient notification was given and that there was not an error of the licensure system that would have precluded the individuals from renewing prior to the renewal deadline.

- 11-077. IT WAS MOVED by Mr. Santora and seconded by Mr. Ulrich to disapprove the requests of Sandy Faulkner, Rex McLaury, and William White for a refund/waiver of the reinstatement fee. MOTION CARRIED UNANIMOUSLY.

The Board reviewed the request from Mr. Robert Lanoux, AIA, who was requesting a clarification on the process for issuing building permits in Tuscaloosa in regards to the fire protection drawings. It was

explained that there were some concerns about the level of design detail being required for permitting. It was the consensus of the Board that it is the Board's responsibility to identify what is required to be performed by professional engineers but that it was not the responsibility of the Board to mandate a permitting authority's processes.

11-079. IT WAS MOVED by Mr. Arkle and seconded by Mr. Foust that the Board specifies what activities require a licensed professional engineer but the Board does not have the authority to identify what level of completion of the design is required by the local permitting authorities. MOTION CARRIED UNANIMOUSLY.

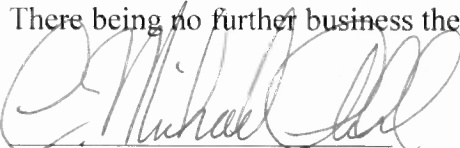

OPEN FORUM

No comments were received during the open forum portion of the meeting.

Minutes of the second meeting of the 2010-2011 Board held January 31, 2011 were received for approval.

11-081. IT WAS MOVED by Dr. Turner and seconded by Mr. Arkle that the minutes of the second meeting of the 2010-2011 Board held on January 31, 2011 be approved as written. MOTION CARRIED UNANIMOUSLY.

Action items from previous meetings were reviewed and updated.

FORMAL HEARINGS

At the request of Mr. Randy Wayne Richardson, the Board conducted a formal hearing to render a decision on Mr. Richardson's request for reinstatement of his previously revoked professional land surveyor license. The Board heard testimony from Mr. Richardson and Mr. William Moss. A court

reporter was present and a transcript of the hearing is on file in the office. Dr. Turner identified that he wished to be recused from the discussion and vote.

11-082. IT WAS MOVED by Mr. Arkle and seconded by Mr. Wilbanks to grant Mr. Richardson's request for the reinstatement of Mr. Randy Wayne Richardson's professional land surveyor license with the stipulation that the remaining provisions of the original consent order be put into effect. MOTION CARRIED 5-0 with Dr. Turner recused.

CORRESPONDENCE

Mr. Bill Garrett, Deputy Attorney General, provided legal support for the balance of the Thursday portion of the meeting.

The Board reviewed a survey being conducted by the Nevada State Board of Professional Engineers and Land Surveyors, who was asking on behalf of a subcommittee for the American Society of Mechanical Engineers, the Board's position on master's or equivalent requirement for professional engineering licensure. The Board confirmed that their position had not changed and that they are not going to seek a licensure law change that would implement the master's or equivalent requirement in Alabama.

The Board met with Mr. William Sacra who explained to the Board his concerns regarding procedures/mandates being done within the Alabama Department of Public Health. Mr. Sacra provided background information on the problems. Mr. Sacra was concerned about a state agency mandating that a PE had to affix his/her seal to documents or projects where the PE had no technical input into the design. He was also concerned about the mandates for sole source and the affixing of his seal to reports that contain opinions contrary to his own. The Board confirmed that a professional engineer should not seal documents that they don't agree with or that were not done under their personal supervision. It was the Board's opinion that they could not answer for the processes used by the Health Department and suggested that Mr. Sacra would need to contact the legal counsel for the Health Department.

The Board reviewed a request from Mr. Will Smith, ADT Security Services, who was asking if the services of a professional engineer are required for the installation of modifications to a fire alarm system in an existing building. The Board identified that modifications to the alarm systems involved engineering and as such the services of a professional engineer were required.

The Board reviewed a request from Mr. Felton Berger who asked for a Board opinion as to who has ownership rights to digital files. It was briefed that at times the board office has had inquiries as to who owns documents produced by a licensee. The Board's Licensure Law and Administrative Code are silent on the matter so the Board can not render an opinion.

LAW ENFORCEMENT – Mr. W. Gerald Wilbanks, Advisor

The Board reviewed the status of the files pending with the Board, the Investigator, and/or the Investigative Committee. The Board reviewed the list of those completed cases that are being monitored. The Board was briefed on the 2011 statistics.

The Board reviewed enforcement action taken against Alabama licensees by other licensing jurisdictions. The licensees will be notified that copies of the actions will be placed in their Alabama licensing files.

- 11-083. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner that the enforcement actions taken by other licensing jurisdictions with the exception of MN1 be made a part of the Alabama licensees' records and that the individuals be sent a letter of caution and further that the staff should investigate the MN1 case to determine if an investigation needed to be opened or if a letter of reprimand was sufficient. MOTION CARRIED 6-0.

The Board reviewed pending cases that the investigative committees have completed to accept, modify, or reject the suggested courses of action.

- 11-084. IT WAS MOVED by Mr. Wilbanks and seconded by Dr. Turner that probable cause exists that Mr. Johnny E. Maxwell, P.L.S. #21174, had provided a survey that contained errors and violations of the standards of practice for land surveying in Alabama and had enabled an unlicensed individual to perform surveying without supervision. The proposed terms of the consent order are Mr. Maxwell shall pay a \$500 fine, he will serve one year of probation, he will attend via classroom a Board approved Standards of Practice for Land Surveying in Alabama course within six months of the final order; he will complete a professional surveyor ethics course provided by New Mexico State University within six months of the final order; and that the record of this matter will be a matter of public record. The Board accepted the terms of the consent order and issued the final order. MOTION CARRIED 5-0 with Mr. Santora recused. (Case 10-40-B)
- 11-085. IT WAS MOVED by Mr. Santora and seconded by Mr. Arkle to close Case 11-09-B with no further action. MOTION CARRIED 5-0 with Mr. Arnold recused.
- 11-086. IT WAS MOVED by Mr. Arkle and seconded by Mr. Foust to close Case 11-10-B with no further action. MOTION CARRIED 5-0 with Mr. Arnold recused.
- 11-087. IT WAS MOVED by Dr. Turner and seconded by Mr. Santora to close Case 11-12-B with no further action. MOTION CARRIED 5-0 with Mr. Wilbanks recused.
- 11-088. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust to close Case 11-14-B with no further action. MOTION CARRIED 5-0 with Mr. Santora recused.
- 11-089. IT WAS MOVED by Mr. Santora and seconded by Mr. Wilbanks to close Case 11-15-B with no further action. MOTION CARRIED 5-0 with Mr. Foust recused.

- 11-091. IT WAS MOVED by Mr. Arkle and seconded by Mr. Foust to close Case 11-17-B with no further action. MOTION CARRIED 5-0 with Mr. Arnold recused.

11-092. IT WAS MOVED by Mr. Foust and seconded by Dr. Turner to close Case 10-47-C with a letter caution. MOTION CARRIED 5-0 with Mr. Arnold recused.

11-093. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust to close Case 11-20-B with no further action. MOTION CARRIED 5-0 with Dr. Turner recused.

Due to an emergency Mr. Wilbanks departed the meeting. It was determined that a quota of five board members remained. The meeting continued.

CERTIFICATES OF AUTHORIZATION – Mr. Don T. Arkle, Advisor

11-094. IT WAS MOVED by Mr. Foust and seconded by Mr. Santora that the Board ratify the approval of Engineering Certificates of Authorization CA-4171-E through CA-4202-E and Land Surveying Certificates of Authorization CA-953-LS through CA-958-LS issued since the January 31, 2011 Board Meeting and further that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED UNANIMOUSLY.

The Board reviewed the certificate of authorization applications that had anomalies. During the review process it was also noted that Construction Solutions International Inc. required a certificate of authorization. It was determined that there was not sufficient information presented for the Board to rule on TAF Engineering Inc.'s application. The firm will be notified that they need to clarify the work hours between the primary and supplemental firm.

11-095. IT WAS MOVED by Mr. Santora and seconded by Dr. Turner to approve the certificate of authorization applications for Engineering Solutions International LLC., Waypoint Engineering & Equipment LLC., and PSE Designs Inc. MOTION CARRIED UNANIMOUSLY.

The Board considered a request filed by GaN Corporation who was asking for an extension of the April 1, 2011 compliance deadline.

11-096. IT WAS MOVED by Mr. Santora and seconded by Dr. Turner that prior to the next board meeting GaN Corporation must have hired an Alabama licensed professional engineer or there must be on file in the board office a completed professional engineer comity application for one of the company's employees. MOTION CARRIED UNANIMOUSLY.

The meeting recessed at 5:45 P.M. The meeting reconvened at 8:00 A.M. with Mr. Wilbanks and Mr. Ulrich absent.

APPLICATIONS – Mr. Phillip E. Santora, Advisor

11-097. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for one hour for the purpose of discussing pending applications. Mistrs Arkle, Arnold, Foust, and Santora and Dr. Turner voted in favor of the motion.

Chair Arnold announced the Board would reconvene into open session at approximately 9:00 A.M. The meeting was closed to the public. The meeting was opened to the public at 9:05 A.M.

Applications of those applying for Engineer Intern certification, as provided by Section 34-11-4(2) of the Licensure Law, were considered.

Applications of those applying for Land Surveyor licensure by Examination, as provided by Section 34-11-4(3)a., b., and c. of the Licensure Law, were considered. Applications of those applying for Land Surveyor Intern certification, as provided by Section 34-11-4(4) of the Licensure Law, were considered.

11-098. IT WAS MOVED by Mr. Arnold and seconded by Mr. Arkle that the Board accept for licensure by comity those applicants listed on **Attachment #1**. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request for board evaluation of transcripts from applicants who wished to be considered for licensure on the basis of obtaining non-engineering degrees or non-land surveying degrees. Mr. Pulice's degree was compared to the requirements for a surveying degree, related to surveying degree and a related science degree as they apply to professional land surveying licensure.

11-106. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner that Scott Lamar Morgan's bachelors and masters degrees be approved as they apply to an engineering application and that John Miller Pulice's bachelors degree be denied as it applies to a land surveying application. For an on-line course of practice exams to be accepted as continuing education the course provider must provide a course completion certificate.

It was noted that there is no provision in the Licensure Law to recognize foreign degrees that are not engineering degrees.

11-120. IT WAS MOVED by Dr. Turner and seconded by Mr. Ulrich that Hoonshin Jung's and Qiqi Liang's bachelors degrees be denied as they apply to engineer intern certification. MOTION CARRIED UNANIMOUSLY.

LAW ENFORCEMENT – Mr. W. Gerald Wilbanks, Advisor

The Board reviewed the status of the files pending with the Board, the Investigator, and/or the Investigative Committee. The Board reviewed the list of those completed cases that are being monitored. The Board was briefed on the 2011 statistics.

The Board reviewed enforcement action taken against Alabama licensees by other licensing jurisdictions. The licensees will be notified that copies of the actions will be placed in their Alabama licensing files.

11-121. IT WAS MOVED by Dr. Turner and seconded by Mr. Ulrich that the enforcement actions taken by other licensing jurisdictions are made a part of the Alabama licensees' records and that the individuals are sent a letter of caution. MOTION CARRIED UNANIMOUSLY.

The Board reviewed pending cases that the investigative committees have completed to accept, modify, or reject the suggested courses of action.

11-122. IT WAS MOVED by Mr. Arkle and seconded by Mr. Foust to close Case 10-41-B with a settlement agreement. The settlement agreement stipulates the professional land surveyor (respondent) will have his PLS licensed placed in retired status immediately, his PLS license cannot be returned to active status, and that this matter will not be a public record. MOTION CARRIED 6-0 with Mr. Ulrich recused.

11-123. IT WAS MOVED by Mr. Santora and seconded by Mr. Wilbanks to close Case 11-11-B with a letter of caution. MOTION CARRIED 6-0 with Mr. Ulrich recused.

11-124. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust to close Case 11-21-B with no further action. MOTION CARRIED 6-0 with Mr. Santora recused.

CERTIFICATES OF AUTHORIZATION – Mr. Don T. Arkle, Advisor

11-125. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Wilbanks that the Board ratify the approval of Engineering Certificates of Authorization CA-4203-E through CA-4243-E issued since the March 24-25, 2011 Board Meeting and further that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED UNANIMOUSLY.

11-126. IT WAS MOVED by Mr. Arnold and seconded by Mr. Arkle that the Board ratify the approval of Land Surveying Certificates of Authorization CA-959-LS through CA-960-LS issued since the March 24-25, 2011 Board Meeting and further that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED UNANIMOUSLY.

The Board reviewed the certificate of authorization applications that had anomalies.

11-127. IT WAS MOVED by Mr. Arkle and seconded by Mr. Ulrich to approve the certificate of authorization applications for TAF Engineering Inc. MOTION CARRIED UNANIMOUSLY.

11-128. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust to approve the certificate of authorization application for Construction Solutions International. MOTION CARRIED UNANIMOUSLY.

The Board discussed a request from Mr. Bruce V. Boan who was questioning if the firm Madison Industries in Conyers, GA was required to have a certificate of authorization. Mr. Boan is employed by Madison Industries which reportedly manufactures prefabricated modular buildings. Mr. Boan believes that their firm falls within the manufacturing exemption for a certificate of authorization. The Board disagreed. It was the Board's opinion that the company's web site shows that the firm is offering engineering as well as the providing of engineering buildings. The Board identified that if the modular building was to be erected in Alabama then the company was required to have an Alabama Certificate of Authorization and the work needed to be done under the supervision of an Alabama licensed professional engineer.

11-129. IT WAS MOVED by Dr. Turner and seconded by Mr. Arkle that Madison Industries required an Alabama certificate of authorization to perform Alabama projects. MOTION CARRIED UNANIMOUSLY.

The Board considered requests from Engineered Plastics of Alabama and GaN Corporation who were requesting extensions of deadlines that had been imposed for them to obtain certificates of authorization. In rendering their decision, the Board considered the number of months that the firms had been given to become compliant with the certification requirements.

11-130. IT WAS MOVED by Mr. Ulrich and seconded by Dr. Turner to deny Engineered Plastics of Alabama's request for an extension and further instructed the staff to open a complaint. MOTION CARRIED UNANIMOUSLY.

11-131. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arkle to deny GaN Corporation's request for an extension and further instructed the staff to open a complaint. MOTION CARRIED UNANIMOUSLY.

The meeting recessed at 5:00 P.M. The meeting reconvened at 8:00 A.M.

LEGISLATIVE – Mr. W. Gerald Wilbanks, Advisor

The Board was briefed on legislation being monitored in the 2011 General Session. The amendment to the board requested legislation was discussed. It was explained that the amendment introduced at the request of some of the utility companies was far reaching on its implications throughout the state. The Board determined that even though the changes to the licensure law being requested by the Board were important that they could not support the utility exemption amendment and instructed the Executive Director to contact Representative Wren, the bill sponsor, to ask that he not pursue bill passage.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The Board was briefed on the on-going audit for this year's renewal cycle. The Board was told that two cases were to be opened based on non-compliance.

APPLICATIONS – Mr. Phillip E. Santora, Advisor

The Board met with Mr. John Pulice to discuss the Board's previous decision to disapprove his education as it applied to professional land surveyor licensure. The Board and Mr. Pulice discussed the lack of surveying core courses in his BS in Geography. The Board noted that it would not preapprove specific courses or course providers but they did outline the types of courses that meet the related to surveying core requirements.

FINANCE – Dr. Daniel S. Turner, Advisor

The financial reports for March and April were discussed. It was noted that the anticipated carryover was decreasing yearly. The staff was instructed to look at various cost saving measures including the possible deletion of the annual pocket cards.

The Board discussed and approved the proposed fees for FY 2012.

11-132. IT WAS MOVED by Mr. Wilbanks and seconded by Dr. Turner to submit the proposed changes to the fees as identified in **Attachment #5** to the Legislative Reference Office. MOTION CARRIED UNANIMOUSLY.

CERTIFICATES OF AUTHORIZATION – Mr. Don T. Arkle, Advisor

The Board met with Mr. Patrick Olson and Mr. Andrew Beck of AeroMetric, Inc. who had requested to meet with the Board to discuss pending certificate of authorization application for AeroMetric, Inc.

The representatives of AeroMetric discussed the company's business operations. The Board explained the requirements for the principals to be present at the location offering the services and that the principal could be only at one location. The firm's representatives identified that they had considered opening an office in Huntsville, which is where Mr. Beck, P.L.S. was located. The Board identified that if the company resubmitted their application identifying the offering locations as what was discussed the certificate of authorization application would be approved.

LAND SURVEYING – Mr. C. Michael Arnold, Advisor

The Board approved the results of the April 2011 exams.

- 11-133. IT WAS MOVED by Dr. Turner and seconded by Mr. Arnold to accept NCEES' recommended cutoff score for the DFLS and PLSA Examinations, to accept the Board's recommended cutoff score for the ALLS Examination, to approve the results of the FLS, PLS, and ALLS Exams given April 2011, to license those individuals who passed the PLS and ALLS Exams having previously passed the FLS Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED UNANIMOUSLY.

EXECUTIVE DIRECTOR'S REPORT

The Board approved travel for the upcoming 2011 NCEES meeting.

- 11-134. IT WAS MOVED by Mr. Santora and seconded by Mr. Ulrich to authorize all board members, board executive director, assistant executive director, staff investigator, and board attorney to attend the 2011 NCEES Annual Meeting in Providence, RI, August 23-28, 2011 including travel dates, and to designate Mr. Arnold as the NCEES reimbursed delegate. MOTION CARRIED UNANIMOUSLY.

The Board approved travel to the CLEAR Annual Meeting.

- 11-135. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust to authorize all board members, executive director, and assistant executive director be approved to attend the 2011 CLEAR Annual Conference in Pittsburgh, PA. MOTION CARRIED UNANIMOUSLY.

The Board approved travel to the FARB Attorney Forum.

- 11-136. IT WAS MOVED by Dr. Turner and seconded by Mr. Ulrich to authorize the executive director, assistant executive director, and paralegal be approved to attend the 2011 FARB Attorney Certification Seminar to be held September 29-October 2, 2011 in Park City, UT. MOTION CARRIED UNANIMOUSLY.

The proposed changes to the Colonial States Boards of Surveyor were briefed. It was noted that the organizational bylaws do not list Alabama as a member since the Alabama does not use the colonial states methodology for surveying. Alabama has been paying dues to the organization in order that in the event Alabama wants access to the organization's photogrammetry examination, it would be charged the membership rate. Since there is no movement to license photogrammetrists in Alabama, the Board identified that it was their intent to no longer participate in the Colonial States organization.

11-137. IT WAS MOVED by Mr. Santora and seconded by Mr. Wilbanks that the Alabama Board of Licensure for Professional Engineers and Land Surveyors no longer participates as a member of the Colonial States Board of Surveyor. MOTION CARRIED UNANIMOUSLY.

UNFINISHED BUSINESS

The Board was updated on the efforts ASPLS was making in responding to the Board's concerns about ASPLS' proposed language on the delaying of setting monumentation for subdivisions. ASPLS notified the Board that the their practice committee was continuing to developed proposed changes to the Standards of Practice and that it was anticipated that those proposed changes were to be presented to the ASPLS Board of Directors. The Board offered a suggestion that it might be beneficial to have a dialogue between ASPLS and the Board about the proposed changes prior to the changes being voted on by the ASPLS membership.

CORRESPONDENCE

The Board reviewed correspondence from an individual who was concerned about a degree being offered by the University of Alabama in Birmingham. The individual was concerned about statements made in advertisements that could be considered misleading and was also concerned that universities were offering masters programs in the schools of engineering that did not require the student to initially have a BS in Engineering. In order to further investigate the issue, the staff was instructed to open a complaint.

The Board was asked to render an opinion if a non-licensed individual could use the title "Test and Balance Engineer." It was noted that the Associated Air Balance Council (AABC) issues a certificate titled "Test and Balance Engineer" that authorizes an individual to perform total system balance in accordance with the standards as established by the AABC. It was noted that AABC does not require an individual to be a licensed PE prior to receiving the certification. The Board was concerned about the use of the title without being a licensed PE. In order to further investigate the issue, the staff was instructed to open a complaint.

The Board reviewed correspondence from Mr. George Surry, Fire Marshal for the City of Gulf Shores, who was asking for clarifications on the Board's Fire Sprinkler Position Statement. The questions were basically at what threshold necessitated the involvement of a professional engineer. The general opinion of the Board is that fire sprinkler system maintenance which involved only replacement-in-kind would not require the services of a professional engineer. If the maintenance could possibly alter the system then a professional engineer needed to be involved. To have a better understanding of the areas involved in fire sprinkler engineering, it was suggested that the Board continue to work with the State Fire Marshal and the item writers of the Fire Protection Engineering PE exam.

The Board reviewed various newsletters that required no response.

NEW BUSINESS

The Board approved the results of the FE Examination given April 2011.

11-138. IT WAS MOVED by Mr. Santora and seconded by Mr. Foust to accept NCEES' recommended cutoff score and that the results of the Fundamentals of Engineering

Examination given April 9, 2011 be accepted, and further that the ABET graduates who have had transcripts furnished direct to the Board Office be approved for Engineer Intern certification and included in the minutes on **Attachment #2**. MOTION CARRIED UNANIMOUSLY.

The Board discussed the misunderstandings about industrial exemptions. It was noted that Alabama Licensure Law has an exemption for the certificate of authorization requirement for industry but not a licensing exemption. The Board discussed at what point do companies no longer fall under the CA exemption. It was decided that there is no clear answer and each case should be handled separately. It was noted that NCEES Presidents have identified that an effort needs to be done nationally to eliminate these types of exemptions in all of the jurisdictions. The Board agreed that there should be a national consensus on how to approach the elimination of various licensure exemptions.

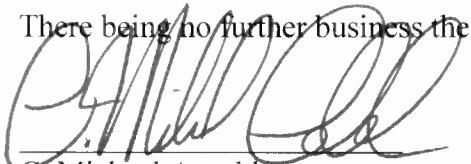

OPEN FORUM

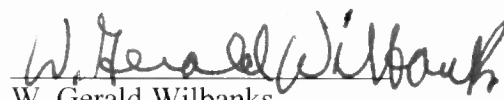

No comments were received during the open forum portion of the meeting.

The Board reviewed the status of the discussion that has been ongoing regarding the monumentation of subdivisions. The Board had been provided a draft copy of the changes being proposed by the ASPLS

Professional Practice Committee. It was noted that there were significant changes being proposed that not only dealt with the subdivision issue. Mr. Jeff Lucas, P.L.S., provided his comments to the Board. The Board thanked Mr. Lucas for his comments and noted that there were two issues. One was the dialogue about subdivision monumentation and the other was the rewrite of the entire standards of practice. The Board asked that ASPLS be thanked for their efforts on the subdivision solution and to notify ASPLS that the Board would reserve any comments on the entire rewrite until the proposed standards were adopted by the ASPLS membership.

The Board reviewed the draft QBS position statement that Dr. Turner had composed. Suggestions for other areas to be included were discussed. Dr. Turner will continue to develop the position statement for the Board's adoption.

Due to a business commitment Mr. Foust departed from the Board meeting.

CORRESPONDENCE

The Board considered a request from Mr. Nathan Currie, EI, who was requesting a refund for the April 2011 Principles and Practice of Engineering Examination fee. Mr. Currie paid for the exam but did not complete the registration process with NCEES.

The Executive Director briefed the Board on issues that had been raised on who should be able to seal the drawings associated with FEMA Safe Rooms. It was noted that FEMA requirements identify that a PE or registered architect can sign the plans. It was the Board's position that if the project/installation is within Alabama and a PE is involved then that PE would need to be an Alabama licensed PE. FEMA and Alabama EMA will be notified of the Board's position.

The Board adjourned at 5:45 P.M. The Board reconvened at 8:00 A.M. on Friday, August 2, 2011 with all board members present.

CERTIFICATES OF AUTHORIZATION – Mr. Don T. Arkle, Advisor

The Board discussed when a certificate of authorization was required. It was noted that there is not a specific definition for "incidental engineering" as it applies to the manufacturing exemption for CA's. It was the Board's opinion that engineering conducted in connection with the manufacturing of the product could be considered incidental and as such the manufacturing firm would not need a certificate of authorization. If a firm provides system design beyond the manufacturing of a product, the firm would require a certificate of authorization.

11-174. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arkle that the Board ratify the approval of Engineering Certificates of Authorization CA-4244-E through CA-4279-E

issued since the May 19-20, 2011 Board Meeting and that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED UNANIMOUSLY.

- 11-175. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner that the Board ratify the approval of Land Surveying Certificates of Authorization CA-961-LS through CA-970-LS issued since the May 19-20, 2011 Board Meeting and further that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED UNANIMOUSLY.

The Board reviewed the certificate of authorization applications that had anomalies. During the review process it was also noted that the individuals involved with Safe Span, LLC should be reminded about the conflict of interest if they do Safe Span work while on the job at Baldwin County.

- 11-176. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Santora to approve the certificate of authorization application for Safe Span, LLC. MOTION CARRIED 6-0 with Mr. Arnold recused.

- 11-177. IT WAS MOVED by Mr. Arkle and seconded by Mr. Ulrich to approve the certificate of authorization applications for Gibson Engineering, LLC. and GMS Testing Inc. and to disapprove the certificate of authorization applications for The Brogdon Group and Pinnacle Design/Build Group, Inc. MOTION CARRIED UNANIMOUSLY.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The Board was briefed on the on-going audit for this year's renewal cycle. It was noted that there were a few licensees who had failed to comply with the audit.

- 11-178. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Arkle to temporarily suspend the licenses of those who have failed to comply with the audit and to open complaints on those same individuals. MOTION CARRIED UNANIMOUSLY.

A clarification on "inactive" status had been requested by a licensee. The Administrative Code defines Inactive Licensee as a person who is totally separated from the profession of engineering or land surveying. The question is can a licensee go inactive if they are still working for an engineering firm but not in an engineering capacity. The Board deferred answering till the Board's attorney had a chance to render an opinion.

FINANCE – Dr. Daniel S. Turner, Advisor

The financial reports for May and June were discussed.

The Board approved the 2012 Operations Plan.

- 11-179. IT WAS MOVED by Mr. Wilbanks and seconded by Dr. Turner that the Board approves the 2012 Operations Plan. MOTION CARRIED UNANIMOUSLY.

Mr. Santora departed the meeting due to an emergency.

EXECUTIVE DIRECTOR'S REPORT

11-180. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust that the Board moves towards the implementation of the application process and procedures as identified in **Attachment #5. MOTION CARRIED 6-0.**

OPEN FORUM

IT WAS MOVED by Dr. Turner and seconded by Mr. Arkle that James Thomas Brazzill, Jr.'s undergraduate degree be disapproved as a related science degree for the purposes of professional engineering licensure and further that the Masters in Construction Engineering Management degree is not equivalent to an ABET accredited masters degree program and as such will not be accepted as a masters in engineering for the purposes of professional engineering licensure. MOTION CARRIED UNANIMOUSLY.

The Executive Director briefed the Board on a corrected PE application. An error was found after the August Board meeting which changed the status of an applicant. If the error had been caught prior to the August Board meeting the applicant would have been approved to sit for the October PE exam. To correct the oversight the applicant was allowed to register for the October exam.

- 12-14. IT WAS MOVED by Mr. Santora and seconded by Dr. Turner to approve for PE examination Mr. Andrew Wesley Warren and to ratify the Executive Director's decision to allow Mr. Warren to sit for the October 2011 PE examination. MOTION CARRIED UNANIMOUSLY.

UNFINISHED BUSINESS

The Board was updated on the issues involved with the offering/providing engineering and or land surveying services on federal property. A recently issued AG opinion #2011-077 involving the Board of Architects cites case law that identifies state licensure would infringe on the power of the federal government. Based on the case law and AG opinion, the Board agreed that the premise would be the same for engineering and land surveying services. It is the Board's opinion that if the services are only being offered/performed to the federal government that licensure can not be mandated. This would be applicable whether the individual's office is located on or off the federal property. If it appears that

services are being offered to someone other than the federal government then licensure would be required.

CORRESPONDENCE

The Board considered a request from Ms. Catherine McNeill, who was requesting a roll-over of the October 2011 Principles and Practice of Engineering Examination fee due to her husband's military deployment.

- 12-23. IT WAS MOVED by Mr. Arnold and seconded by Mr. Santora that the Board disapprove Ms. McNeill's request for roll-over of the October 2011 PE exam fee. MOTION CARRIED 5-1 with Mr. Wilbanks voting in the negative.

The Board considered a request to include individuals' e-mail addresses when providing mailing lists.

- 12-24. IT WAS MOVED by Mr. Arnold and seconded by Mr. Foust that the Board does not consider e-mail addresses of applicants/licensees/interns as public records and as such will not be included in requests for public information. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Mr. Jacob Hill, P.E., who was seeking guidance from the Board on whether a PE could seal the plans for a hypothetical project that possibly involved architectural services. The Board cited that a licensee should only perform those services in which they are competent to do so. Competency is normally determined by education, examination, and experience. As a licensed professional engineer, a licensee can perform those items that are within the definition of the practice of engineering. An individual may feel that they are qualified to perform the functions noted in the hypothetical project but parts of the services being offered may violate the Board of Registration for Architects licensure law. It was suggested that Mr. Hill should contact the Architects Board to seek an opinion from them.

The Board reviewed various newsletters that required no response.

Due to a previous commitment, Dr. Turner departed the meeting at 2:25 P.M.

LAW ENFORCEMENT – Mr. W. Gerald Wilbanks, Advisor

The Board reviewed the status of the files pending with the Board, the Investigator, and/or the Investigative Committee. The Board reviewed the list of those completed cases that are being monitored. The Board was briefed on the 2011 statistics.

The licensees will be notified that copies of the actions will be placed in their Alabama licensing files. It was determined that additional information was needed to determine what action should be taken in regards to "FL 1" since he relinquished his Florida license.

- 12-25. IT WAS MOVED by Mr. Foust and seconded by Mr. Arkle that with the exception of the licensee listed as "FL 1" to send a letter of caution to the licensees and make the actions a part of their records. MOTION CARRIED 5-0.

The Board reviewed pending cases that the investigative committees have completed to accept, modify, or reject the suggested courses of action.

EXECUTIVE DIRECTOR'S REPORT

Staff briefed the Board on their research into compliance issues with the new immigration law. It was noted that the Attorney General is now issuing guidance letters since an official AG opinion will not be issued due to the fact that the legislation is under litigation. Many issues on how to comply with the legislation exist and it was agreed that guidance should be sought from the AG. Staff was directed to accept new applications and to continue the renewal process for current interns, licensees, and firms while determining who to comply with the new legislation.

- 12-63. IT WAS MOVED by Dr. Turner and seconded by Mr. Arkle that the Board Chair and Executive Director identify the questions on how to conform to the immigration law and then seek guidance from the Attorney General on those questions; and furthermore to continue to operate under the present procedures of collecting the U.S. Social Security Numbers to validate new applications and renewal applications. MOTION CARRIED UNANIMOUSLY.

APPLICATIONS – Mr. Phillip E. Santora, Advisor

The Board met with Mr. James Brazzill, a previously denied applicant. Mr. Brazzill presented a recap of his engineering experience and his education identifying that his goal is to be a licensed professional engineer. It was noted that he has obtained a BA in Mathematics and a MS in Construction Engineering Management. It was confirmed that the degrees do not meet the licensure requirement. The Administrative Code allows for a board approved four-year related science degree plus an approved masters in engineering to be considered equivalent to an unaccredited four-year engineering degree. In the case of the two degrees Mr. Brazzill has obtained, the BA in Mathematics does not meet the related science criteria and the Board has ruled that the MS in Construction Engineering

Management degree from UAB is not an acceptable either for engineering experience or as a master's degree for education licensure purposes. It was suggested to Mr. Brazzill that he might want to consider obtaining an ABET accredited BS in engineering since there has been discussion to change the administrative rules to delete the related science plus masters licensure capability as it applies to engineering licensure.

ENGINEERING – Mr. William C. Ulrich, Jr., Advisor

The Board met with Mr. Jonathan Stanton, a PE applicant, who wanted to discuss events that occurred at the Birmingham test site during the October 2011 offering of the PE exam. Mr. Stanton was denied entry to the exam due to having an expired driver's license as his form of identification. Mr. Stanton was able to get a new driver's license but it was after the start of the exam so access to the test site was denied. Mr. Stanton identified his concerns over this procedure. He asked that some combination of the following occur: that he be allowed to take the test out-of-cycle at a special location, that the examination fee be refunded or rolled to the next exam offering, and that the failure to take the October 2011 examination not be counted as a failed attempt. The Board explained that NCEES is responsible for the procedures followed at the test sites. All test sites within all jurisdictions are responsible for following the same procedures and that those procedures were followed properly. There will be no refund of the exam fee or rolling of the exam fee. The failure to sit for an examination is not counted as a failed attempt. The Board encouraged Mr. Stanton to continue the licensure process.

Following Mr. Stanton's appearance, the Board considered a request from Ms. Valerie Morton who was requesting a refund or rollover of the October 2011 FE examination fee due to a death in her family.

12-64. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arnold that the Board disapproves Jonathan Stanton's requests. MOTION CARRIED UNANIMOUSLY.

12-65. IT WAS MOVED by Dr. Turner and seconded by Mr. Ulrich that the Board disapproves Valerie Morton's requests. MOTION CARRIED UNANIMOUSLY.

CORRESPONDENCE

The Board met with Mr. Bob Barnett, PE, and Mr. Essam Ahmad, PE, who were asking the Board's guidance on if there was a threshold of when residential construction required the use of a professional engineer's services. Mr. Ahmad, the Pell City Engineer, explained that as the city engineer he has concerns that residential construction plans did not contain the seals and signatures of PE's but also questioned whether the services being provided was engineering. During the dialogue between the Board, Mr. Barnett, and Mr. Ahmad, it was noted that there was no residential exemption in the Board's licensure law similar to the one contained in the Board of Registration of Architects Licensure law. The requirement for professional engineering services in some cases is scenario dependent. The Board realizes that minor home construction may not need professional engineering services on a routine basis but that major home construction possibly includes engineering services. It was noted that the Board had previously rendered an opinion that truss design is an engineering function and requires the services of a professional engineer. The Board will not seek a licensure law change exempting residential homes. If the engineering societies feel that this is a significant issue they will have to initiate the legislation.

The Board met with Mr. Gary Gleason, PE, (City of Huntsville) and Mr. Garrett Tirpak, (Representative of Smart Vents) who were asking for the Board's opinion on whose professional engineering seal and signature needed to be on the International Code Council Evaluation Service, Inc. (ICC-ES) Evaluation Reports for engineered openings (vents). The FEMA guidelines require a PE seal and signature and the question being raised was if that PE had to be an Alabama licensed PE. It was the Board's opinion that if the vents are not manufactured in Alabama then any licensed professional engineer's seal and signature could be accepted.
