November 14, 2018**

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through swift and effective discipline for those individuals or entities who violate the applicable laws or rules.

COMMUNICATIONS AND PUBLICATIONS - Mr. Marc S. Barter, Advisor

The Board was briefed on current Outreach activities.

FINANCE – Mr. Richard Grace, Advisor

The monthly financial reports for September and October 2018 were briefed.

EXECUTIVE DIRECTOR’S REPORT

The Board was briefed on the following: (1) update on status of current litigation, (2) the release of the Request for Proposals (RFP) for a new licensing system, (3) Certificate of Authorization Renewals began October 29, 2018, and (4) future opportunities to attend training presented by the Examiners of Public Accounts.

The Board reviewed disclaimer language recently noted in a soil report with special attention given to the second to last paragraph on the page labeled 23. After this review and discussion, it was the Board’s position that the inclusion of this language is unethical since it attempts to limit the responsibility associated with a professional engineer’s use of their seal on their instruments of service.

The Board discussed the recent Sunset Review Hearing in which State Representative Margie Wilcox raised concerns regarding the exam pass rates outlined in the Examiner’s Report. Representative Wilcox stated the Board should notify the Universities of their student pass rates. The Board determined to send a letter to the Universities informing them how they can obtain the information from the National Council of Examiners for Engineering and Surveying (NCEES).

CORRESPONDENCE

The Board discussed a letter from Mr. A. R. Almodovar, P.E, requesting the Board advise if the Code of Alabama Code 34-11-2(a) applies to his company (Intuitive) when they bid on and perform work on federal contracts pursuant to NAICS 541330. The Board determined it would advise Mr. Almodovar that in most cases it has no jurisdiction over work performed for projects on Federal Land.

The Board reviewed a list of individuals impacted by the recent law change that submitted a request that they be granted the right to use the title "Professional Engineer, Retired" or "Professional Land Surveyor, Retired," as applicable.

19-027. IT WAS MOVED by Ms. Hyde and seconded by Mr. Grace that the Board grant approval for the listed individuals to use the title "Professional Engineer, Retired" or "Professional Land Surveyor, Retired," as applicable. MOTION CARRIED 7-0.

NEW BUSINESS

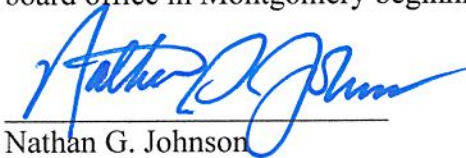

The Board was asked by Board Member Randall Whorton, to review the definition of the practice of engineering to determine if the “commissioning of engineering works, products, and systems” language in the definition required commissioning services to follow the Qualification Based Selection (QBS) process. After discussing the matter, the Board agreed that QBS was required for commissioning projects, and to increase educational outreach on this matter to include placing an article in its next newsletter.

OPEN FORUM

No comments were made during the open forum.
