terms of the consent order and issued the final order. MOTION CARRIED 6-0 with Mr. Foust recused. (Case 12-06-B)

12-111. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich that probable cause exists that Mr. Timothy Gray Frazier, II, PE #28807, had entered into a consent order with the Florida State Board of Professional Engineers that required him to pay a \$5,000 civil penalty, to pay \$6,437 administrative cost, and suspension of his Florida PE license for three years. The accepted terms of the consent order are that Mr. Frazier's Alabama professional engineer license shall be suspended immediately upon issue of the Final Order and will stay suspended until October 19, 2014, he will cease and desist offering or providing engineering services in Alabama while his license is in suspended status, and that the matter will become a public record. The Board accepted the terms of the consent order and issued the final order. MOTION CARRIED 6-0 with Mr. Santora recused. (Case 12-07-B)

12-112. IT WAS MOVED by Mr. Ulrich and seconded by Dr. Turner that probable cause exists that MLC CAD Systems, a non certificated firm, maintained an internet web page indicating branch office located in Alabama and used the term "Engineering" and "Engineers" implying the firm is offering or providing engineering in Alabama without obtaining a certificate of authorization for engineering. The accepted terms of the consent order are that the firm shall refrain from the use of the title "Application Engineer" for its employees for matters in Alabama unless and until such time as the employees are Alabama licensed professional engineers, the firm will continue to indicate that no professional engineering services are provided in Alabama until such time as the firm obtains an Alabama engineering certificate of authorization, and that the matter will become a public record. The Board accepted the terms of the consent order and issued the final order. MOTION CARRIED 6-0 with Mr. Foust recused. (Case 11-06-C)

MOTION CARRIED UNANIMOUSLY.

The Board reviewed the certificate of authorization applications that had anomalies. During the review process it was also noted that Sigma Associates LLC needed to designate a new principal engineer since Mr. Carroll was a full time employee of Irby Engineering & Construction Inc.

12-114. IT WAS MOVED by Mr. Arnold and seconded by Mr. Santora to approve the certificate of authorization applications for Irby Engineering & Construction Inc.; Garcia Consulting Engineers, PC; Obrien Precast Engineering and Design and to disapprove certificate of authorization applications for Autery Land Surveying; Oakland Metal Buildings; and Boles Engineering Inc. MOTION CARRIED UNANIMOUSLY.

Mr. Arkle departed. Six board members remained.

The Board meeting adjourned at 5:45 P.M. The Board meeting reconvened at 8:00 A.M. on Friday, March 16 with all board members being present.

LAW ENFORCEMENT

12-117. IT WAS MOVED by Dr. Turner and seconded by Mr. Foust that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for the purpose of deliberating on Case 11-43-B. MOTION CARRIED 6-0 with Mr. Foust recused. (Case 11-43-B)

LEGISLATIVE – Mr. W. Gerald Wilbanks, Advisor

The Board was brief on legislation being monitored in the 2012 Legislative General Session. It was determined that the Board would continue to seek passage of legislation to update the Board's Licensure Law.

EXECUTIVE DIRECTOR'S REPORT

The Board was updated on the plans for hosting the 2012 NCEES Southern Zone Meeting.

The Board was briefed on the topics discussed at the February NCEES Member Board Administrators meeting. It was noted that many of the items involved in the transition to computer based testing are on the zone meeting agenda.

The Board reviewed proposed changes to the Administrative Code.

12-119. IT WAS MOVED by Mr. Arnold and seconded by Mr. Foust to submit the proposed changes to the Administrative Code to the legislative reference office. MOTION CARRIED UNANIMOUSLY.

CORRESPONDENCE

The Board reviewed requests from various licensees who were requesting either a waiver of the reinstatement fee or a refund of their reinstatement fee that was being assessed since they had not renewed their individual licenses prior to the renewal deadline. Prior to discussing the requests, there was discussion regarding the large reinstatement fee.

12-120. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Arkle to change the first year reinstatement fee from \$250 to \$150 plus renewal fee. MOTION WAS DEFEATED 2-5 with Mr. Wilbanks and Mr. Arkle voting in the affirmative.

12-121. IT WAS MOVED by Mr. Arnold and seconded by Dr. Turner to waive the continuing education requirement for Mr. Lane but that the reinstatement fee would not be waived. MOTION CARRIED UNANIMOUSLY.

12-122. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich to deny the requests of Charles Garcia, Pat Shields, Brian Shimoura, and Robilyn Gass to waive/refund the reinstatement fee. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Dr. David A. Conner, PE, who was asking for a Board declaratory ruling on whether engineering faculty engaging in research activities in Alabama universities that are not licensed as a PE in Alabama and not working under the direct supervision of a licensed AL PE are in violation of the Alabama Licensure Law. The Board noted that the Board had previously notified the engineering deans that the offering of engineering services through the university was considered engineering and as such required licensure. It was noted that the term "research" was not specifically contained in the definition of the practice of engineering, but that some of the activities being performed as research is engineering and as such should be done by licensed PE's or under their direct supervision.

12-123. IT WAS MOVED by Mr. Foust and seconded by Dr. Turner to issue a declaratory ruling which contains the conclusions that had been noted during this discussion. MOTION CARRIED UNANIMOUSLY.

The Board reviewed various newsletters that required no response.

NEW BUSINESS

The NCEES Engineering Education Standard was reviewed. NCEES was offering to modify the standard for specific jurisdictions. The Board determined that the current evaluation was meeting the requirements of Alabama.

OPEN FORUM

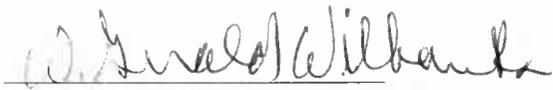

No comments were received during the open forum portion of the meeting.

The next meeting of the Board for board business is scheduled for Thursday, May 17, 2012 in Montgomery, Alabama beginning at 1:00 P.M.

LEGISLATIVE – Mr. W. Gerald Wilbanks, Advisor

The dates for the 2013 Legislative Session were briefed. Proposed changes to the Licensure Law were discussed. The executive director will draft the changes and begin the process of having legislation prepared.

EXECUTIVE DIRECTOR REPORT

The Executive Director briefed the Board on the status of the 2011 Immigration Law which requires the licensing board to determine the immigration status of the applicants prior to the issuance of licenses. Portions of the 2011 law are still under legal challenge but the section requiring the immigration declaration has been upheld. The board's application to the federal SAVE program is still pending. The staff's proposed procedures for compliance were discussed. Effective immediately professional licensing applications will include a declaration statement, all pending applications will not be presented to the Board for approval until they have the declaration statement, 2013 renewals and reinstatement forms will have the declaration added, intern applications will not include the statement since they are not considered a professional license, and certificate of authorization applications will not include the statement since the principal will already be compliant. The declaration statement was reviewed by the board's attorney who identified he believed it met the requirements of the law. The status of non-U.S. citizens will not be checked until such time as the board office is approved to use the SAVE program.

12-193. IT WAS MOVED by Mr. Willis and seconded by Mr. Arnold to approve the declaratory statement and the procedures for immigration compliance as outlined by the board staff. MOTION CARRIED UNANIMOUSLY.

CORRESPONDENCE

The Board staff asked for guidance from the Board on how to proceed with enforcing the protection of the "engineering" title. The staff was asking on how to proceed when it is determined that the title "engineer" is being used by someone who does not hold a professional engineering license. The Board instructed the staff to continue the process currently in use to gain compliance.

NEW BUSINESS

The Board was asked if a certificate of authorization was required for subcontractors to a prime contractor of a federal contract. Previously it was determined that contractors on a federal contract were exempt from licensure law requirements. The question now being asked was if a subcontractor was also exempt. The Board concurred with the legal opinion that a subcontractor who was only performing services for the federal contract was also exempt. It was noted that when looking at revisions to the licensure law that the federal exemption should be reworded based on the ruling that federal contractors were exempt.

LAND SURVEYING – Mr. C. Michael Arnold, Advisor

The board was briefed on the continuing efforts to revise the state specific land surveying examination. The test questions continue to be reviewed and the next major action item is to have a session to set the passing score based on the administration of a trial exam. The committee proposes that the session be done in conjunction with the fall ASPLS meeting with the board defraying any costs that may be incurred including the paying mileage for the session participants. The Board also authorized continuing education credit for the individuals participating in the session.

12-194. IT WAS MOVED by Mr. Willis and seconded by Mr. Foust to approve the rewrite efforts of the state specific land surveying examination as outlined. MOTION CARRIED UNANIMOUSLY.

The Board meeting adjourned at 5:40 P.M. The Board reconvened at 8:00 A.M. on Friday, July 27, 2012 with the same individuals in attendance.

EXECUTIVE DIRECTOR'S REPORT

The Board elected officers for 2012-2013.

12-195. IT WAS MOVED by Mr. Willis and seconded by Mr. Arnold to elect Dr. Turner as Chair. MOTION CARRIED UNANIMOUSLY.

12-196. IT WAS MOVED by Mr. Foust and seconded by Mr. Willis to elect Mr. Santora as Vice Chair. MOTION CARRIED UNANIMOUSLY.

12-196. IT WAS MOVED by Mr. Wilbanks and seconded by Dr. Turner to elect Mr. Foust as Secretary. MOTION CARRIED UNANIMOUSLY.

The agenda for the 2012 NCEES Annual meeting was reviewed.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

Results of the 2012 continuing professional competency audit were briefed. Of those who were selected for audit, four responses were determined to be non-compliant by the staff. The non-compliant issues were briefed to be Board. The first two licensees have failed to provide documentation for the continuing education claimed. The third licensee identified an error when calculating the number of hours claimed. The fourth licensee had to correct the number of hours that had been claimed.

12-197. IT WAS MOVED by Mr. Arnold and seconded by Mr. Willis that licensee #1 and #2 have their licenses temporarily suspended and initiate complaints, licensee #3 is notified that he must obtain 15 PDH prior to October 1, 2012, and that licensee #4 is notified that he must obtain 4 PDH prior to October 1, 2012. MOTION CARRIED UNANIMOUSLY.

FINANCE – Dr. Daniel S. Turner, Advisor

Financial reports for May and June 2012 were reviewed.

The 2013 OPLAN was briefed. Questions were raised about how much liability coverage the board had if sued. The executive director was tasked to research the current coverage. Plans for additional enforcement efforts were discussed. The enhancements to the investigative process included the possible use of technical advisors in the field, publicity campaign, and a board vendor table at various state conferences.

12-198. IT WAS MOVED by Dr. Turner and seconded by Mr. Willis to approve the 2013 Operations Plan. MOTION CARRIED UNANIMOUSLY.

CORRESPONDENCE

The Board reviewed correspondence from Mr. Bill McGrath, NJ Society of Professional Land Surveyors, who had written an article where he was concerned about the increasing use of individuals providing brokering services. The current status of the Board was confirmed that if a brokering firm does not have a protected term in its name it does not need a CA if it is only providing the brokering service but that the actual provider of the service needs to be licensed in Alabama.

Mr. Willis was selected to replace Mr. Don Arkle as the board liaison to the University of Alabama Department of Civil, Construction, and Environmental Engineering Advisory Board.

The Board reviewed various newsletters that required no response.

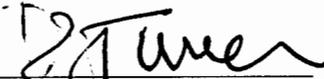

OPEN FORUM

No comments were received during the open forum portion of the meeting.

CLOSING REMARKS

The next meeting of the Board for board business is scheduled for Wednesday, October 10, 2012 in Montgomery, Alabama beginning at 8:00 A.M.

The Board reviewed pending cases that the investigative committees have completed to accept, modify, or reject the suggested courses of action.

13-045. IT WAS MOVED by Mr. Arnold and seconded by Mr. Willis that there was probable cause that Mr. J. Keith Maxwell, PLS #17262 was offering land surveying services via internet web sites that contained business names which required certificates of authorization without having the required certificates of authorization. The accepted terms of the consent order are that Mr. Maxwell's professional land surveyor license is on probation for six months, he will pay \$500 fine to the Board, he must remove language from any website maintained by him which appears to indicate it is a firm with a physical location offering land surveying services unless the physical location employs an Alabama licensed professional land surveyor and obtains a certificate of authorization for land surveying from the Board; and the matter will become a public record. The issues involved which board should investigate the practicing of incidental architecture and incidental engineering.

13-051. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Arnold to forward the complaint without investigation to the Board of Architects and further to notify the complainant of the forwarding. MOTION CARRIED 4-1-1 with Mr. Barter opposed and Mr. Willis recused.

13-055. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Willis to approve the proposed changes with board composition being five professional engineers, two professional land surveyors, and two public members with no qualifying language for the professional engineer or professional land surveyor positions. MOTION CARRIED 5-1 with Mr. Arnold opposed.

Mr. Wilbanks departed the meeting.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The Board considered a request from Mr. Lewis Waters who was asking the Board for a second year exemption from the continuing education requirement for medical circumstances. It was the Board's opinion that the medical exemption was for a significant event that occurs which precludes the earning of the continuing education when it is close to renewal time and that if a licensee is healthy enough to continue to practice in active status that they should be required to earn the continuing education.

13-056. IT WAS MOVED by Mr. Arnold and seconded by Mr. Foust to disapprove Mr. Waters request and to notify him that he had 180 days in which to earn the required hours or his license would be placed in inactive status. MOTION CARRIED 5-0.

LAND SURVEYING – Mr. C. Michael Arnold, Advisor

The Board approved the results of the October surveying examinations.

13-059. IT WAS MOVED by Mr. Arnold and seconded by Mr. Willis to accept NCEES' recommended cutoff score for the FLS and PLS Examinations, to accept the Board's recommended cutoff score for the ALLS Examination, to approve the results of the FLS, PLS, and ALLS Exams given October 2012, to license the individuals who passed the PLS and ALLS Exams having previously passed the FLS Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED 5-0

EXECUTIVE DIRECTOR REPORT

The Board was briefed on the number of unpaid fines and civil penalties. The Board reviewed the process that another state licensing board was using for collection of unpaid fines. The Board authorized the staff to proceed with the contracting process to hire an attorney to act as a collection agent.

13-060. IT WAS MOVED by Mr. Barter and seconded by Mr. Arnold to approve that the Board enter into a legal services contact for collection of unpaid fines and civil penalties MOTION CARRIED 5-0.

The 2013 Board meeting was approved.

13-061. IT WAS MOVED by Mr. Foust and seconded by Mr. Willis to approve the 2013 Board meeting calendar. MOTION CARRIED 5-0.

The Board was updated on the changes to the state travel policy.

The Board approved the NCEES Exam Administration Agreement which replaced the formal contract with NCEES. It was noted that the contract for NCEES was no longer necessary since the Board no longer pays for exam services since the applicants are paying those fees directly to NCEES.

13-062. IT WAS MOVED by Mr. Willis and seconded by Mr. Foust to approve the Exam Administration Agreement between the Board and the National Council of Examiners for Engineering and Surveying. MOTION CARRIED 5-0.

The Board was briefed on suggested improvements to streamline the comity licensure and intern certification process. These procedures will include the issuance with some exceptions of licensure and certificates as they are reviewed and the changing of the licensure wall certificate to only contain the signature of the executive director.

13-063. IT WAS MOVED by Mr. Willis and seconded by Mr. Foust to authorize the Executive Director to certify interns who do not have any exceptions to their applications and license applicants who do not have any exception to their applications at the time the applications are complete with those actions being ratified by the Board at the next board meeting. MOTION CARRIED 5-0.

CORRESPONDENCE

The Board was briefed on the issues involved in the request for clarification on the sealing of documents. Representatives from the firm asking for the clarification were scheduled to meet with the Board of December 7th. The questions being raised were if standard detail engineering drawings that were provided by an outside source needed to be signed and sealed by the engineer of record. The issues were discussed but the final opinion of the Board was deferred till the meeting with the parties involved.

The Board was asked to clarify the requirements of being in responsible charge and the certificate of authorization requirements. The Board concurred that to be designated a resident licensed professional

that the professional had to be physically present at the identified location during its normal business hours unless out in the field on a firm related project. Each branch office must have a resident full time professional and cannot be in responsible charge of an office if working out of another office.

The Board reviewed various newsletters that required no response.

The meeting adjourned at 4:35 P.M. The meeting reconvened at 8:00 A.M. on December 7th. All board members with the exception of Dr. Turner were present.

CERTIFICATE OF AUTHORIZATION – Mr. Marc S. Barter, Advisor

Mr. Tim Webb, owner of Dutton Webb and Associates met with the Board to discuss the status of the firm's certificate of authorization. Mr. Webb was informed of the Board decision that the firm would not be allowed to renew their certificate of authorization unless the firm had a full-time professional land surveyor designated as principal. Mr. Webb and the Board discussed the services being offered. Mr. Webb stated that the majority of work being performed was for federal contracts. The Board explained that based on legal opinions that it could not intervene in any federal contract but that if Dutton Webb and Associates offered land surveying services to the public it would need a CA. If Mr. Webb offered or performed surveying services to the public under his own name a CA was not required.

The individuals who were to meet with the Board in regards to the sealing of standard drawings were not able to appear at the meeting. The Board continued with the discussion of the subject. It was the opinion of the Board that any engineering drawings contained in a project should have a PE seal.

NEW BUSINESS

The Board reviewed the proposed language to clarify the definition of "Inactive Licensee" as it appears in the Administrative Code.

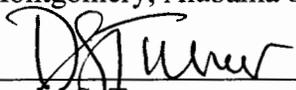

13-064. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust to approve the proposed changes to the definition of Inactive Status in Administrative Code Section 330-X-2.01(11). MOTION CARRIED UNANIMOUSLY.

OPEN FORUM

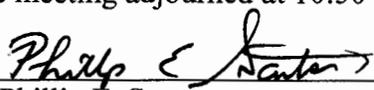

No comments were received from the public.
