LEGISLATIVE – Mr. W. Gerald Wilbanks, Advisor

The Executive Director led a discussion and provided information to the Board regarding the current status of the bill updating the licensure law- SB 40 and HB 72. Unknown to the staff, an amendment was attached to the bill which would change the appointment selection process for the two land surveyor Board positions. Executive Director briefed the Board that if the bill does not pass the Board will not be able to certify engineer or land surveyor interns because of the current exam length language in the law.

Jennifer Sellers and Joey Breighner of the Alabama Society of Professional Land Surveyors (ASPLS), Rene Casillas and Steven Speaks representing American Council of Engineering Companies of Alabama (ACEC), and Joe Meads of the Alabama Society of Civil Engineers (ASCE) provided comments regarding their respective organizations' position on the amendment.

All Board members made comments on the original legislation and the amended legislation. It was the consensus of the Board that the bill needs to be passed due to the implications on the certification and licensure implications. The Board reaffirmed that it would not take a position on the board appointment process amendment since it ~~did believe~~ ^{BELIEVES} it ~~was~~ ^{IS} inappropriate to get involved in the board member nomination process. ^{INAPPROPRIATE}

NCEES is paying for the registration fee and travel expenses for two voting delegates from each Member Board to attend. Any additional expenses not covered by NCEES funding is paid by the Board. UNFINISHED BUSINESS AND CORRESPONDENCE

The \$250 reinstatement fee is assessed to individual PEs, PLSs and companies failing to renew their individual license prior to December 31, 2013 for licensees and January 31, 2014 for companies. As of January 21, 2014 eighty-six individuals have renewed their license and paid the reinstatement fee. The following individuals are requesting a waiver of the reinstatement fee: C. Michele Jones, Roselou Maxwell, Corey Knight, and Mark S. Haeussler.

The Board reviewed correspondence received from Mr. Tom Brantley regarding the license renewal process and took no action.

The Chair led a discussion on the possibility of changing to a biannual renewal process. Executive Director indicated that there is language in the law allowing for a biannual renewal process but that any rule changes would need to be discussed during the April board meeting and voted on by the June meeting in order to ~~get those changes made~~.

Executive Director led a discussion on the current requirement for professional land surveyors to complete a Standards of Practice for Land Surveyors course every four years. The Board directed the Executive Director to make contact with the Professional Land Surveyor Organizations and seek recommendations concerning continuing professional competency requirements.

NEW BUSINESS

Avalisha Fisher, professional engineer requested the Board's opinion regarding an "Invitation to bid" that appeared to be a bid process rather than QBS Selection for engineering and surveying services. She provided a copy of the Mobile Gas Service Corporation Request for Proposal (RFP).

After a discussion, the Board directed staff to prepare a letter and send copies to all those responding to any invitations to bid.

On December 1, 2013 a renewal notice postcard was mailed to all licensees firms and advised that failure to renew prior to January 31, 2014 would result in an additional \$250 reinstatement fee. The following firms have requested a waiver of the reinstatement fee; Madderra Engineering Co., Inc, Civil Engineering Resources, and South & Associates.

14-75. IT WAS MOVED by Dr. Turner and seconded by Mr. Christy to deny the request for waiver of reinstatement fee for Madderra Engineering Co. Inc and Civil Engineering Resources. MOTION CARRIED 5-0.

The Board was briefed on the amount of surety bond that is obtained through the Department of Finance, Division of Risk Management.

Due to the non-availability of the board's legal counsel on the April 9th, the Board jumped to new business to discuss an enforcement question.

NEW BUSINESS

The Board was briefed that the office had received a complaint about an Alabama licensed professional engineer providing a false and misleading report in another jurisdiction without being licensed in that jurisdiction. The question being raised was whether Alabama should investigate the complaint or should the jurisdiction where the occurrence occurred initially investigate the matter. It was the consensus of the Board to proceed with the investigation.

The meeting adjourned at 5:20 P.M.
The meeting reconvened at 8:00 A.M. on April 9th with all board members present.

EXECUTIVE DIRECTOR'S REPORT

The Executive Director provided an office update. Hiring efforts have begun to hire a second special investigator. The redesign of the web site is almost complete. The office is looking at ways to reach out to the public and our licensees. Various pamphlets will be developed and new media tools for vendor space will be purchased.

Different options for converting to biennial renewals were discussed. It was determined that the conversion to biennial renewals should be done as soon as feasible. The guidelines for biennial licensure would be to renew odd number licenses on odd number years and even licenses on even numbered years, 30 hours of continuing education would be required with a maximum carryover of 15 hours, new licensees would not be issued any hours of continuing education, interns will not be required to renew, and there would not be a "retired" status for renewal. It was also agreed that the

certificates of authorization should also go to biennial renewals. The executive director was instructed to determine what of these conversions could be done without a law change and to determine the financial impact of these conversions.

The Board reviewed the proposed changes to the Administrative Code and instructed the executive director to begin the advertisement of those changes.

Due to the length of discussion on the Administrative Code proposed changes, it was decided to postpone the discussion on proposed Law Changes. A subcommittee composed of Mr. Barter, Mr. Foust, and Mr. Christy was tasked to develop a draft Law Revision to be discussed at the next board meeting.

UNFINISHED BUSINESS AND CORRESPONDENCE

The \$250 reinstatement fee is assessed to individual PEs, PLSs and companies failing to renew their individual license prior to December 31, 2013 for licensees and January 31, 2014 for companies. The individuals and holders of Certificates of Authorization who were requesting a waiver of the reinstatement fee were discussed.

LEGISLATIVE – Ms. M. Elisabeth Hyde, Advisor

The Board was briefed on the efforts of the sub-committee that was appointed to review the current law and suggest law changes. A preliminary draft of law changes had been provided to the Board members prior to the board meeting. Instead of reviewing the actual document, the Board discussed the proposed changes in concept form. After listening to comments made by board members and the public present, a straw poll was made to determine which concepts the majority of board members were in favor of. The sub-committee was tasked to continue to work on the draft law. All board members were asked to provide their suggested changes directly to the sub-committee. The sub-committee will provide a revised draft to the Board at the July meeting.

The Board discussed the plan of the sub-committee to continue to work on the draft revisions so that they could be discussed at the upcoming society meetings. Townhouse meetings throughout the state will also be planned. At those meetings the board will seek comments from our licensees with the plan of providing another revised law draft to the Board at the October 2014 board meeting. The goal is still being the introduction of legislation in the 2015 Legislative General Session.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The status of the audits for the 2014 renewal cycle was briefed. A larger than usual number of those not responding to the initial notification suggests that many selected for the audit did not receive the initial notification that had been e-mailed. Letters notifications have been sent to those who had not responded by the initial deadline.

Due to the growing number of non-compliances and the problems with this cycle of notifications, the staff was asked to continue to look at the audit process to determine if the process could be improved.

FINANCE – Dr. Daniel S. Turner, Advisor

End of month financial reports for March and April 2014 were reviewed.

Board members were briefed on how the salaries of the executive director and assistance director were determined.

14-131. IT WAS MOVED by Dr. Turner and seconded by Mr. Barter to request the appropriate authorities approve a 5% pay raise for both Regina Dinger and William R. Huett.
MOTION CARRIED 6-0.

LAND SURVEYING – Mr. A. Frazier Christy, Advisor

The Board approved the April 2014 PS and ALLS exam results.

14-132. IT WAS MOVED by Mr. Barter and seconded by Mr. Willis to accept the accept NCEES' recommended cutoff score for the PLS Examination, to accept the Board's recommended cutoff score for the ALLS Examination, to approve the results of the

PLS and ALLS Exams given April 2014, to licensure those individuals who passed the PLS and ALLS Exams having previously passed the FLS Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED 6-0.

The status of the ALLS Exam rewrite was discussed. With three of the four board members who were involved in the rewrite effort having either already rotated off the board or will be rotating off in the very near future, it was suggested that a review of the status of the state specific exam be done. A subcommittee of Mr. Christy (Chair), Dr. Turner, and Mr. Santora was established to determine the status of the ALLS exam. The sub-committee was asked to provide a report of their work at the July board meeting.

ENGINEERING – Charles P. Willis, Advisor

The Board approved the April 2014 PE and SE exam results.

- 14-133. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde to accept NCEES' recommended cutoff score for the PE and SE Examinations, to approve the results of the PE and SE Exams given April 2014, to license those individuals who passed the PE or SE having previously passed the FE Exam and further that the list of those issued licensure as a result of passing these examinations be included in the minutes on **Attachment #1**. MOTION CARRIED 6-0.

CHAIR'S REPORT

The results of the recent Sunset Audit report were briefed. The Executive Director explained the Legislative Sunset Process.

EXECUTIVE DIRECTOR'S REPORT

Board officers for 2014-2015 year were elected.

- 14-134. IT WAS MOVED by Dr. Turner and seconded by Mr. Willis that Mr. Foust be elected as Chair of the Board for the 2014-2015 year. MOTION CARRIED 6-0
- 14-135. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde that Mr. Barter be elected as Vice-Chair of the Board for the 2014-2015 year. MOTION CARRIED 5-0 with Mr. Barter recused.
- 14-136. IT WAS MOVED by Mr. Willis and seconded by Mr. Barter that Mr. Christy be elected as Secretary of the Board for the 2014-2015 year. MOTION CARRIED 5-0 with Mr. Christy recused.

The Board considered if they would ask NCEES to consider the outgoing board members for NCEES Emeritus Member status.

14-137. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde to recommend to NCEES Mr. Wilbanks, Dr. Turner, and Mr. Santora for emeritus status with NCEES. MOTION CARRIED 4-0 with Mr. Santora and Dr. Turner recused.

The Board was briefed on changes to the out-of-state travel process.

The Board reviewed the proposed changes to the Administrative Code that will be considered at the July board meeting.

The Board was briefed on the issues involved in the approval process for the receipt of FEMA grant money for community safe rooms. There continues to be confusion as to what agencies need to be involved in the process based on the specific laws in Alabama vs. the general provisions of the FEMA regulations. The Board did not issue an official opinion but it was the consensus of the board that the services of an architect and an engineer are both required. The construction of systems in a safe room either require the involvement of an engineer at the manufacturing plant (in the case of prefab shelters) and on-site. The Board declined to be involved in the permitting process as they felt that it was not within the scope of the Board.

UNFINISHED BUSINESS AND CORRESPONDENCE

The Board took into consideration a proposal from a firm offering to provide independent integrity monitoring for those who have had enforcement actions taken against them by the Board. It was not obvious how the firm's services could be utilized with the types of enforcement actions being taken by the Board. The staff was asked to research the options and costs associated and report back at the next board meeting.

The Board reviewed a request received on behalf of Mr. Yongnam Shin who was seeking an opinion if he needed to have a professional engineer's license to work in one of the automotive manufacturing plants. It was the position of the board that Mr. Shin did not require a PE license as long as the only engineering services he provided was to the manufacturing plant that was his employer.

14-138. IT WAS MOVED by Mr. Santora and seconded by Dr. Turner that Mr. Yongnam Shin does not require a professional engineer's license as long as he is only providing those services in conjunction with product manufacturing. MOTION CARRIED 6-0.

NEWS LETTERS AND OTHER CORRESPONDENCE

Newsletters and general correspondence not requiring a response were reviewed.

OPEN FORUM

Members of the public that were present had made their comments to the Board during the discussion of proposed law changes. No further comments were made during the open forum.

The accepted terms of the Consent Order are that Beau Tate will cease and desist the practice or offer to practice of engineering in Alabama, the firm will cease and desist the practice of offer to practice of engineering from locations in which it does not employ a licensed Alabama P.E., the firm will pay a \$1,500 fine and the consent order and final order will become a public record. CERTIFICATES OF AUTHORIZATION – Mr. Marc S. Barter, Advisor

The Board previously authorized the Executive Director to issue certificates of authorization to applying firms if the application is in order and all requirements have been met. A list of Certificates of Authorization issued to engineering firms (CA-4857-E through CA-4902-E) and a list of Certificates of Authorizations issued to land surveying firms (CA-1052-LS through CA-1060-LS) since the July 22, 2014 Board Meeting were reviewed.

- 15-25. IT WAS MOVED by Mr. Christy and seconded by Mr. Willis that the Board ratify the approval of Engineering Certificates of Authorization CA-4857-E through CA-4902-E and Land Surveying Certificates of Authorization CA-1052-LS through CA-1060-LS issued since the July 22, 2014 Board Meeting and that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED 6-0.

The Board considered the certificate of authorization applications that had exceptions.

15-26. IT WAS MOVED by Mr. Willis and seconded by Mr. Christy to defer the CA application for Computer Buzz Inc, and to deny the CA applications for GMR Aerial Surveys Inc dba Photo Science; SARCOR, LLC; and Tompkins Surveying and Mapping. MOTION CARRIED 6-0.

The Board considered a request from STS Engineering Solutions to be able to use the term “Engineering” in its title without obtaining a CA. It was determined that this firm is regulated by the Federal Aviation Administration and as such is exempt from the Board’s licensing laws. The Board approved the request.

15-27. IT WAS MOVED by Mr. Willis and seconded by Ms. Hyde to approve STS Engineering Solutions’ request to be able to use the firm’s name without first obtaining an Engineering Certificate of Authorization. MOTION CARRIED 6-0.

The Board reviewed a request for declaratory ruling received from Mr. Russell Hyde who was asking if a branch office can offer/perform multi-discipline engineering services if only a single discipline PE is in residence at that branch office. The Board agreed there was confusion on the multiple use of the term responsible charge, but they were in consensus that not all disciplines had to be at all branch offices. It was confirmed that a resident licensee was required at each branch office and that it was the responsibility of that resident licensee to oversee the day-to-day operations of that particular office. If the resident licensee at the branch office was not competent in a particular discipline it was then their responsibility to ensure that the work was being done under the supervision of the competent licensee.

The Board discussed the status of two firms who have “Engineering” in their titles. It was confirmed that the original exemption for Tire Engineers would continue even though they have been bought out by Express Oil Change. It was also agreed that the title Express Oil Change/Tire Engineers does not tend to convey the impression that the firm or individuals are professional engineers or that the firm is offering engineering. The Board disapproved the request from Life Safety Engineers to be allowed to practice in Alabama without an engineering Certificate of Authorization. The title “Life Safety Engineers” could give the impression that the firm was offering and performing engineering.

LEGISLATIVE – Ms. M. Elisabeth Hyde, Advisor

The Board was briefed on anticipated legislation that will be filed during the 2015 General Session. Efforts will continue to see if the Board’s proposed legislation updating the licensing law can be ready for this session.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The status of the audits for the 2014 renewal cycle was briefed.

The Board reviewed a request from Mr. Robbie Laney who was asking that if time he had spent evaluating foreign foundries for his company could be counted as continuing education. The Board denied his request since his action were part of his regular employment duties.

Alternative methods to complete the audit process were discussed. It was determined not to change from the current process being used. The Board requested the staff to determine if there was a way that the course completion certificates could be uploaded to the continuing education log.

The Board reviewed correspondence from Mr. Randy VanSickle who was identifying his concern over the recent change requiring course completion certificates. The Board acknowledged that organizations may not be issuing course completion certificates currently but also that it isn't that hard to get one upon request. The Board is currently not anticipating a change to the requirement.

FINANCE – Mr. Richard Grace, Advisor

The financial reports for July and August 2014 were reviewed.

LAND SURVEYING – Mr. Frazier Christy, Advisor

The Board approved the results of the August state specific portion of the land surveying exam.

15-28.
