ALABAMA BOARD OF LICENSURE FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS MINUTES – JANUARY 11, 2022

Montgomery, Alabama

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. Its charter is to protect the public by helping to safeguard life, health, and property, and to promote the public welfare by providing for the licensing and regulation of persons in the practices of engineering and land surveying. This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through swift and effective discipline for those individuals or entities who violate the applicable laws or rules.

"An active formal training and supervision plan must be developed by a company wishing to employ remote supervision techniques, that describes, in detail, the methodologies to be employed and the frequency of virtual contact between the engineering and/or land surveyor intern and the supervisor. Written records should be maintained by the company, which may be requested by the Board to verify intern supervision."
