MONTGOMERY COUNTY

Before me, Bonnie Kelly, a notary public for the State of Alabama-at-Large personally appeared Nanette Baldwin, and James Pegues, P.E., who being known to me and who being duly sworn, deposes and states that the foregoing facts are true and correct to the best of their knowledge and belief.

Subscribed and sworn to before me this, 10th day of December 2025.

Bonnie Kelly, Notary Public
My commission expires January 17, 2029.

ALABAMA
BOARD OF LICENSURE
FOR
PROFESSIONAL ENGINEERS
AND
LAND SURVEYORS

2025

FY2024-2025 ANNUAL REPORT

Established 1935

BOARD INFORMATION

- BELS is comprised of nine members. Five professional engineers, two professional land surveyors, and two public members.
- All members are vetted by specific nominating committees. The committees then submit a list of three names to the Governor who makes the appointment.
- Board meetings are held every two months and are open to the public.

DIRECTOR'S MESSAGE

The Board welcomes the opportunity to provide this report reflecting a review of its FY2025 operations. The Board was created in 1935 and operates under the authority of the **Code of Alabama 1975**, Sections 34-11-1 through 34-11-37. It is charged with licensing and regulating the professional practice of engineering and land surveying in the State of Alabama.

Code of Alabama 1975, Sec. 34-11-37(d)

In accordance with the Code of Alabama 1975 Section 34-11-37(d) this report contains records of the Board's transactions and a complete statement of its receipts and expenditures.

OUR MISSION

The Alabama Board of Licensure for Professional Engineers and Land Surveyors was established by legislative action in 1935. Its charter is to protect the public by helping to safeguard life, health, and property, and to promote the public welfare by providing for the licensing and regulation of persons in the practices of engineering and land surveying.

This purpose is achieved through the establishment of minimum qualifications for entry into the professions of engineering and land surveying, through the adoption of rules defining and delineating unlawful or unethical conduct, and through discipline for those individuals or entities who violate the applicable laws or rules.

PROFESSIONAL ENGINEERS

ENGINEERING is defined as any professional service or creative work, the adequate performance of which requires engineering education, training, and experience in the application of special knowledge of the mathematical, physical and engineering sciences to such services or creative work as a consultation, investigation, evaluation, planning, design and design coordination of engineering works and systems, planning the use of land and water, for the purpose of monitoring compliance with drawings and specification insofar as they involve safeguarding life, health or property.

Licenses Issued	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Total
PE	341	288	257	235	1121

PROFESSIONAL LAND SURVEYORS

LAND SURVEYING is defined as a professional service that includes, but is not limited to, consultation, project coordination, investigation, testimony, evaluation, planning, mapping, assembling and interpreting reliable scientific measurements and information relative to the location, size, shape, areas, volumes, or physical features on the earth, or any part of the earth, and the utilization and development of these acts and interpretation into an orderly survey map, plan, report, description, or project.

The practice of land surveying includes professional services using such sciences as mathematics and geodesy, and involving the making of geometric measurements and gathering related information pertaining to the physical or legal features of the earth, the space on, above, or below the earth, and providing, utilizing, or developing the same land survey products such as graphics, data, maps, plans, reports, descriptions, or projects.
